

Mandatory Emissions Return (Transmission)

Te Uru Rākau
Forestry New Zealand

Emissions Trading Scheme (Forestry) – Post-1989

ETSP89EREX.7

Use this form if you are the transferor, and one of the following transmissions is occurring:

- land sale or assignment of registered forestry right or lease;
- transfer of land or registered forestry right or lease, by operation of law;
- grant of registered forestry right or lease; or
- expiry/termination of registered forestry right or lease.

The form must be submitted within 20 working days of the transmission.

To ensure that correct reporting periods and changes in carbon stocks are reported when completing this form, refer to:

- Climate Change (Forestry Sector) Regulations 2008,
- Climate Change Response Act 2002, Part 5, and the
- *A Guide to Look-Up Tables for Forestry in the Emissions Trading* (www.mpi.govt.nz/news-and-resources/publications.aspx)

All information is **MANDATORY** unless indicated as 'optional'.

3 Calculation of the net changes in carbon stocks

Important information

An assessment must be made between the net change in carbon stocks in this emission return, and the net change from any prior voluntary emission returns submitted during the return period. This will result in either:

- no change to the Participant's units;
- the Participant being entitled to additional units; or
- a requirement for the Participant to surrender units.

If the date of transmission is a date other than the 31st December, then the transferor does not receive any units in relation to forest growth for that year.

If a CAA or part of a CAA is cleared before the date of transmission, then the related emissions must be included in the Emissions Return.

Instructions

- ① Enter the number of each CAA affected by the transmission.
- ② Enter the return period for each CAA. The start date is the latest of:
 - the first day of the mandatory emissions return period the interest was transferred; or
 - the date the land was established in the CAA became post 1989 forest land; or
 - the date the CAA was constituted; or
 - the day after an emissions return under s189(4)(A).

The end date is the date of transmission of the registered forest land.

- ③ Sum the net units from all prior voluntary returns for the return period.
- ④ Using the tables in the *Climate Change (Forestry Sector) Regulations 2008, Schedule 6* available at <http://www.legislation.govt.nz>, or your participant-specific tables, calculate the net change in carbon stocks in units for each CAA. Enter the resulting calculated increase OR decrease in the appropriate column.
- ⑤ Total the units for every CAA for all pages.
- ⑥ Calculate the overall entitlement to receive units or liability to surrender units.

Note: If you have more CAAs, copy page 4 and attach to this form.

Example

CAA NUMBER ④	RETURN PERIOD ② (dd/mm/yyyy)		NET CHANGE IN CARBON STOCKS (UNITS)		
	From	To	Voluntary returns ③	Total for return period ③	Net (③ - ③)
