OTHER ACTS

[Commerce Act 1986](#)
[Consumer Guarantees Act 1993](#)
[Fair Trading Act 1986](#)
[Hazardous Substances and New Organisms Act 1996](#)
[Resource Management Act 1991](#)
[Health and Safety in Employment Act 1992](#)

[Food Act 2014¹](#)

The purpose of this Act is to—

- (a) restate and reform the law relating to how persons trade in food; and
- (b) achieve the safety and suitability of food for sale; and
- (c) maintain confidence in New Zealand's food safety regime; and
- (d) provide for risk-based measures that—
 - (i) minimise and manage risks to public health; and
 - (ii) protect and promote public health; and
- (e) provide certainty for food businesses in relation to how the requirements of this Act will affect their activities; and
- (f) require persons who trade in food to take responsibility for the safety and suitability of that food.

[Animal Products Act 1999](#)

The objective of the Act is to –

- (a) Minimise and manage risks to human or animal health arising from the production and processing of animal material and products by instituting measures that ensure so far as practicable that all traded animal products are fit for intended purpose; and
- (b) Facilitate the entry of animal material and products into overseas markets by providing the controls and mechanisms needed to give and to safeguard official assurances for entry into those markets

[ACVM Act 1997](#)

The purpose of this Act is to—

- (a) prevent or manage risks associated with the use of agricultural compounds, being—
 - (i) risks to public health; and
 - (ii) risks to animal welfare; and
 - (iii) risks to agricultural security;
- (b) ensure that the use of agricultural compounds does not result in breaches of domestic food residue standards;
- (c) ensure the provision of sufficient consumer information about agricultural compounds.

[Biosecurity Act 1993](#)

Law relating to the exclusion, eradication, and effective management of pests and unwanted organisms, including those already established here.

¹ Food Act 2014 commenced on 1 March 2016. There is a 3 year transition period for existing business to move from operating under the Food Hygiene Regulations 1974 or a food safety programme to the requirements of the Food Act 2014.

Food Act 2014 cont.
Part 2 – Risk-based measures
Food sectors are classified into three classes of risk. Higher risk food businesses must operate under a Food Control Plan, medium to lower risk food businesses under a National Programme and very low risk businesses under neither (but still need to make safe and suitable food).

Part 3 – Food imported for purpose of sale
This Part covers requirements for imported foods.

Part 4 – Provisions relating to recognition, territorial authorities, administration, and enforcement
This Part includes directions by chief executive, for example recall.

Part 5 – Miscellaneous provisions
This Part includes provisions for regulations and standards, including Food Standards.

Animal Products Act cont.
Part 2 – Risk Management Programmes (RMPs)
An RMP is a programme designed to identify, control, manage, eliminate or minimise hazards and other risks during processing of animal material & products

Part 3 – Regulated Control Schemes
RCSs are special regulatory regimes to provide for cases where it is inappropriate or impractical to manage risk factors under an RMP or where special provision is required for the purposes of overseas market access requirement

Part 4 – Animal Product Standards and Specifications
This part provides for the setting of standards and specifications that must be met by any animal product intended for trade or processed for reward before it may be considered fit for intended purpose.

Part 5 – Export of Animal Material and Products
The purpose of this Part is to facilitate export by providing for the specifying of requirements that must be met for products to be eligible for export; providing for requirements and systems intended to safeguard official assurances & providing for the registration of exporters.

Part 8 – Recognised Agencies and Persons
The purpose of this Part is to provide for the recognition of agencies and persons to perform specialist functions and activities including verification under the Act.

ACVM Act cont.
Part 2 – Importation, manufacture and sale of agricultural compounds¹
Agricultural Compounds and Veterinary Medicines (Exemptions and Prohibited Substances) Regulations 2011 Requirements for exempt Oral Nutritional compounds – Pet Food. Animal Feeds Classification of Substances as Generally Recognised as Safe (GRAS)

Biosecurity Act cont.
Part 3 – Importation of Risk goods²
22: Import Health Standards 39: Transitional Facilities

Part 5: Pest Management
Biosecurity (National American Foulbrood Pest Management Plan) Order 1998

Food Science Research

Novel technologies project reports – find reports from projects on novel technologies such as genetically modified foods, foods from cloned animals and nanotechnology.

Labelling research – find reports about food labelling and its effectiveness in informing consumers.

Nutrient research – find reports about projects on trans fatty acids, agricultural compound residues, and nutrients such as sodium, folic acid, iodine and Vitamin D.

Biological hazard research – find reports from research into microbial hazards – that are the predominant causes of foodborne illness. **Includes campylobacter.**

Production, processing & handling research – find reports from projects which concern the evaluation of meat hygiene, the safety of dairy, UCFM and produce products, domestic food handling, innovative processes and procedures, antimicrobial resistance and laboratory systems including the National Typing Database.

Codex Documents
