

# IMPORT HEALTH STANDARD FOR PROCESSED TILAPIA AND CATFISH FOR HUMAN CONSUMPTION FROM SPECIFIED COUNTRIES

Issued pursuant to Section 24A of the Biosecurity Act 1993

Dated:

## USER GUIDE

The information in the Ministry for Primary Industries (MPI) animal product import health standards is presented in numerically ordered sections with descriptive titles. Sections are grouped into one of four parts, designated alphabetically.

Part A. GENERAL INFORMATION contains sections of general interest, including those relating to the legal basis for MPI import health standards and the general responsibilities of every importer of animals and animal products.

Part B. IMPORTATION PROCEDURE contains sections that outline the requirements to be met prior to and during importation. Whether a permit to import is required to be obtained prior to importation is noted, as are conditions of eligibility, transport and general conditions relating to documentation accompanying the consignment.

Part C. CLEARANCE PROCEDURE contains sections describing the requirements to be met at the New Zealand border and, if necessary, in a transitional facility in New Zealand prior to any consignment being given biosecurity clearance.

Part D. ZOOSANITARY CERTIFICATION contains model health certification which must be completed by the appropriate personnel as indicated in the certification and accompany the consignment to New Zealand.

## PART A. GENERAL INFORMATION

### 1 IMPORT HEALTH STANDARD

- 1.1 Pursuant to section 24A of the Biosecurity Act 1993 (the Act), this document is the import health standard for processed tilapia and catfish for human consumption from specified countries as set out in Part B.
- 1.2 Obtaining biosecurity clearance for each consignment of processed tilapia and catfish for human consumption is dependent upon the consignment meeting the requirements of this import health standard.
- 1.3 This import health standard may be reviewed, amended or revoked if there are changes in New Zealand's import policy or the animal health status of the originating country, or for any other lawful reason, at the discretion of the Manager, Import & Export

Animals.

## **2 IMPORTER'S RESPONSIBILITIES**

- 2.1 The costs to MPI in performing functions relating to the importation of processed tilapia and catfish fish for human consumption shall be recovered in accordance with the Biosecurity Act and any regulations made under that Act.
- 2.2 All costs involved with importation such as documentation, transport, storage and obtaining a biosecurity authorisation and/or biosecurity clearance shall be borne by the importer or agent.
- 2.3 Commercial consignments of products imported into New Zealand for human consumption in New Zealand must comply with the Food Act 2014. These requirements are independent of the import health standard requirements. Importers are advised to contact the Food Safety unit of MPI or consult the website at: <http://mpi.govt.nz/nzfoodsafety/>
- 2.4 Once the consignment has been given biosecurity clearance into New Zealand, it is the importer's responsibility to ensure (where relevant) that the consignment complies with the Animal Products Act 1999, especially if it is returned New Zealand product, product entering operations also used for the export of animal products, or if it is to be re-exported. Information about these requirements can be obtained from the website at: [www.mpi.govt.nz/exporting/overview/general-requirements/export-non-conformances/](http://www.mpi.govt.nz/exporting/overview/general-requirements/export-non-conformances/) or by contacting the local MPI Verification Services office. Certification and other official assurance requirements which may be applicable are accessible at: [www.mpi.govt.nz/food-safety/](http://www.mpi.govt.nz/food-safety/).
- 2.5 It is the importer or agent's responsibility to ensure that they are compliant with the import health standard at the time of importation into New Zealand. Current versions of import health standards are available online at: [www.mpi.govt.nz/law-and-policy/requirements/import-health-standards/](http://www.mpi.govt.nz/law-and-policy/requirements/import-health-standards/).

## **3 DEFINITION OF TERMS**

For the purposes of this IHS, terms used that are defined in the Act have the meanings set out there. The Act is available at the following website: <http://www.legislation.govt.nz/>.

### **Certifying Official**

A person authorised by the Veterinary Authority of the exporting country to sign international veterinary certificates.

### **CITES**

The Convention on International Trade in Endangered Species of Wild Fauna and Flora.

### **MPI**

Ministry for Primary Industries, New Zealand

## **OIE**

The World Organisation for Animal Health

### **Potable water**

Water fit for human consumption, i.e. water that does not contain organisms pathogenic to humans in sufficient quantities to render the water harmful to a human consumer.

### **Zoosanitary certificate**

A certificate issued by the exporting country in accordance with the OIE.

## **4 EQUIVALENCE**

- 4.1 The Chief Technical Officer (CTO) may approve measures under section 27(1)(d) of the Act, different from those set out in this IHS, that may be applied to effectively manage risks associated with the importation of these goods. If an equivalent measure is approved a permit to import may be issued under section 24D(2) of the Act, if the Director-General considers it appropriate to do so.

## **PART B. IMPORTATION PROCEDURE**

### **5 ELIGIBILITY**

- 5.1 This import health standard allows the importation of:

1. frozen, skinless, boneless fish fillets (or mince derived from fillets) of tilapia (*Oreochromis* spp.) for human consumption from the People's Republic of China, Brazil, Thailand, the Philippines, Indonesia or Malaysia
2. frozen, skinless, boneless fish fillets (or mince derived from fillets) of non-CITES listed species of catfish (*Pangasius* spp.) for human consumption from Thailand, Vietnam or Malaysia.

### **6 DOCUMENTATION ACCOMPANYING THE CONSIGNMENT**

- 6.1 The consignment must be accompanied by appropriately completed health certification which meets the requirements of PART D. ZOOSANITARY CERTIFICATION.
- 6.2 Documentation must be in English, but may be bilingual (language of exporting country/English).
- 6.3 It is the importer's responsibility to ensure that any documentation presented in accordance with the requirements of this import health standard is original (unless otherwise specified) and clearly legible. Failure to do so may result in delays in obtaining biosecurity authorisation and/or clearance or rejection of consignments.

## **PART C. CLEARANCE PROCEDURE**

### **7 BIOSECURITY CLEARANCE**

7.1 For biosecurity clearance the product must:

7.1.1 Meet Part B, and

7.1.2 Must be accompanied by printouts of all container temperature sensors or direct electronic downloads where freezing is completed in transit.

## **PART D. ZOOSANITARY CERTIFICATION**

### **8 EXPORT CERTIFICATION**

The following model Zoosanitary Certificate contains the information required by MPI to accompany processed tilapia and catfish for human consumption.

*Draft for Consultation*

## 9 MODEL ZOOSANITARY CERTIFICATION

Commodity: FROZEN, SKINLESS, BONELESS FISH FILLETS (OR MINCE DERIVED FROM FILLETS) OF TILAPIA OR CATFISH FOR HUMAN CONSUMPTION

Scientific name: ..... (insert either *Oreochromis* spp. or *Pangasius* spp.)

Exporting Country: .....

Competent Authority: .....

### I. ORIGIN OF THE PRODUCT

(i) Name, address and registration number of farm of origin: .....

.....

(ii) Name, address and registration number of processing facility: .....

.....

### II. PRODUCT DESCRIPTION

(i) The commodity contained in this consignment is (describe form and packaging):

.....

(ii) Amount (in kgs) of product:.....

Number of the container(s) and container seal number(s) if sea freight: .....

.....

### III. DESTINATION OF FISH

(i) Name and address of New Zealand importer: .....

.....

### IV. ZOOSANITARY INFORMATION

I, .....being a certifying official of

.....  
(for *Oreochromis* spp. insert either Brazil, the People's Republic of China, Thailand, the Philippines, Indonesia or Malaysia; for *Pangasius* spp. insert Thailand, Vietnam or Malaysia), certify after due enquiry, with respect to the product identified in this Zoosanitary Certificate that:

1. The product is derived from fish within the genus.....  
(insert either *Oreochromis* spp.or *Pangasius* spp.) that have been farmed and were continually resident in.....  
(for *Oreochromis* spp. insert either Brazil, the People’s Republic of China, Thailand, the Philippines, Indonesia or Malaysia; for *Pangasius* spp. insert Thailand, Vietnam or Malaysia).
2. The product contains only skinless, boneless, frozen fillets (or mince derived from fillets) for human consumption.
3. No CITES listed species were used in the manufacturing of this product.
4. The product is derived from fish that were not slaughtered as an official disease control measure as a result of an outbreak of disease.
5. The product is derived from fish that at the time of harvesting for processing did not show any clinical signs of disease, septicaemia or skin ulceration.
6. The product is derived from fish that were processed in establishments approved by the Competent Authority of (for *Oreochromis* spp. insert either Brazil, the People’s Republic of China, Thailand, the Philippines, Indonesia or Malaysia; for *Pangasius* spp. insert Thailand, Vietnam or Malaysia).
7. Potable water was used at all times in the processing plant where these fish have been processed.
8. EITHER
  - i. The product has been frozen to -18 °C for at least 168 hours (7 days) prior to transport, OR
  - ii. The product has been frozen to -18 °C for at least 168 hours (7 days) including transit time. **Note: Details of freezing during transit will be required as per the Import Health Standard PART C. 7.1.2.**

*(Delete 8.i or 8.ii as appropriate to the consignment)*
9. This certificate was completed no more than three (3) days prior to shipment.
