CTO Direction to MPI Inspector – Renewal of CTOPlants: 20180015

Pursuant to section 27(1)(d)(iii) of the Biosecurity Act 1993 I, **Peter Thomson**, give the following directions for consignments of canola seed to be directed to a transitional facility for processing:

- Canola seed (*Brassica napus*) is considered a 'Basic' seed for quarantine pests for the purposes of importation under the GCFP.IHS: Grain and seeds for consumption, feed or processing import health standard.
- that an import permit is issued for canola for consumption, feed or processing to manage the risk of potential GM seed, by directing for destruction processing in a transitional facility.
- operation under an approved grain importation system is not required.

This direction takes effect from the date of signing.

Peter Thomson

Chief Technical Officer

Date: 09/10/2020
