OIA19-0241

21 JUN 2019

s 9(2)(a)

Dear s 9(2)(a)

OFFICIAL INFORMATION ACT REQUEST

I refer to your official information request on 6 May 2019 relating to s 9(2)(a) and the Northland Regional Council Resource Consent. On 31 May 2019, the Ministry for Primary Industries (MPI) extended the time limit to respond to your request to 21 June 2019. Your request has been considered under the Official Information Act 1982 (OIA) and below are responses to each of your questions.

- 1. All documents held by the Ministry relating to the extraction of logs, trees or timber under the Northland Regional Council's resource consent dated 10 August 2018 and numbered AUT.040137.01.01, granted to s 9(2)(a) and s 9(2)(a) to extract sunken trees and logs from the beds of various watercourses (Consent). A copy of the consent is attached.**
- 2. All documents and records being or relating to any milling statements sought or granted in relation to any logs, trees or timber extracted under the Consent, or otherwise sought by s 9(2)(a), or s 9(2)(b)(ii)**
- 3. All documents held by the Ministry relating to timber extraction or milling activities by s 9(2)(b)(ii) s 9(2)(a) or s 9(2)(a) or any of their know associates or agents.**

The following documents are released to you under the OIA.

- Indigenous Timber Milling Statement, 9 February 2012
- Indigenous Timber Milling Statement, 7 May 2013

Te Uru Rākau
Forestry & Land Management
Charles Fergusson Building, 34-38 Bowen Street
Wellington 6011, New Zealand
PO Box 2526
Wellington 6140, New Zealand
Telephone: 0800 00 83 33, Facsimile: +64-4-894 0300
www.mpi.govt.nz

- Indigenous Timber Milling Statement, 15 June 2018
- Indigenous Timber Milling Statement, 30 January 2019
- Indigenous Timber Milling Statement, 18 March 2019

Some information has been withheld pursuant to the below sections of the OIA. MPI is satisfied that in the circumstances of this case, the withholding of the information is not outweighed by other considerations which render it desirable in the public interest to make the information available.

- Section 9(2)(a) - to protect the privacy of natural persons, including that of deceased natural persons
- Section 9(2)(b)(ii) - to protect information where the making available of the information would be likely unreasonably to prejudice the commercial position of the person who supplied or who is the subject of the information

4. All documents (including policies, guidelines or opinions) relating to the ability to mill or export timber extracted from riverbeds or the seafloor, and MPI's treatment of application to export or mill such timber.

This information is publically available, therefore this part of your request is refused pursuant to section 18(d) of the OIA. Provisions for milling indigenous timber can be found in Part 3A of the Forests Act 1949, particularly section 67D(1)(b)(iv) & (v). Guidelines for exporting timber and timber products can also be found on the Te Uru Rākau website - <https://www.teururakau.govt.nz/growing-and-harvesting/forestry/indigenous-forestry/exporting-indigenous-timber-and-timber-products>.

You have the right under section 28(3) of the OIA to seek an investigation and review by the Ombudsman of this decision.

Yours sincerely

Oliver Hendrickson
Director Forestry & Land Management

INDIGENOUS TIMBER MILLING STATEMENT

Milling Statement No. 7-00-01543

Period to which this milling statement applies: 9/2/2012 to 8/3/2013

This statement is issued to: s 9(2)(a)

Address: s 9(2)(a), s 9(2)(b)(ii)

under Section: 67D(1)(b)(iv)

of the Forests Act 1949 for milling: Salvaged Timber

Timber Species and Volumes:

Species	Number of Trees	Number of Logs	Volume m ³ (Roundwood)
Rimu		75	150.0
Matai		25	50.0
Totara		25	50.0
Kahikatea		25	50.0
Total Volume			300.0

Landholding (C/T Identifier(s)): s 9(2)(b)(ii)

Legal Description: s 9(2)(b)(ii)

General Conditions:

- This statement allows the timber listed above to be milled at any sawmill registered to mill indigenous timber under section 67D(1) of the Forests Act 1949.
- This statement does not confer right, title or ownership to the timber described above.
- Before any felling or harvesting you should check with your relevant Regional or District Council for any resource consent/compliance requirements for such activity under the relevant Regional and/or District Plans.

Other Conditions:

- Note as per conditions already set out salvage should only occur from the Maungakahia river under the conditions and the locations set out in resource consent CON20082167401

Date of Issue: 9/2/2012

Dear Sir

Indigenous Timber Milling Statement

Please find attached an INDIGENOUS TIMBER MILLING STATEMENT, which provides for the milling of indigenous timber;

No. 7-00-01543	50.0 m ³	Kahikatea
	50.0 m ³	Matai
	150.0 m ³	Rimu
	50.0 m ³	Totara

The approved volume is log roundwood volume.

This statement does not give a right to access land or a right to the ownership of indigenous timber.

Milling of indigenous timber

Sawmills milling indigenous timbers are required to be registered under the Forests Act 1949. The sawmiller should receive a copy of the Milling Statement.

It is your responsibility to ensure that you meet any other regulatory requirements. Before harvesting, you should check with your relevant Regional or District Council for any compliance requirements with Regional and/or District Plans under the Resource Management Act 1991.

Yours faithfully

RESOURCE CONSENT DECISION

CON20082167401

Non Notified New

Pursuant to Section 104B of the Resource Management Act 1991 ("the Act"), the Northland Regional Council ("the Council") hereby grants resource consent to:

s 9(2)(a), s 9(2)(b)(ii)

To carry out the following activity on the bed of the Mangakahia River from its confluence with the Wairua River to upstream of Titoki Bridge between location co-ordinates s 9(2)(b)(ii) s 9(2)(b)(ii) and s 9(2)(b)(ii) s 9(2)(b)(ii)

Note: All location co-ordinates in this document refer to Geodetic Datum 2000, New Zealand Transverse Mercator Projection.

01 Salvage logs from the bed of the Mangakahia River

Subject to the following conditions:

- 1 All access and egress to water bodies for barges and logs shall be at existing landing sites or crossings, unless the barge is lifted by crane directly into and out of the waterbody. No removal of sunken logs from the bed of the river shall be undertaken adjacent to land owned by any person, including that of s 9(2)(a), s 9(2)(b)(ii) without his prior written approval.
- 2 No new earthworks for vehicle access over or through any river bank shall be carried out for the purpose of extracting logs.
- 3 The Consent Holder shall not exercise this consent in areas which may adversely affect the stability of riverbanks, nor where bank margins contain native aquatic plants including mangroves, salt marshes, raupo, flax, sedges, and rushes.
- 4 All logs extracted from the river shall be retained on the barge or otherwise placed above flood level within 48 hours of their extraction.
- 5 The Consent Holder shall advise both the Regional Council (Private Bag 9021 Whangarei) and The Secretary Korokota Marae Trustees, s 9(2)(a) s 9(2)(a) in writing of the date and location of any intended exercise of this consent, not less than one week beforehand.
- 6 The Consent Holder shall advise the Department of Conservation in writing, at least 10 days prior to exercising this consent in any part of the river where the depth of water is less than 0.7 metres.
- 7 The Consent Holder shall maintain a written record of all logs salvaged. This information shall include type and approximate location of every log removed, and shall be made available upon request, within 48 hours to the Council for inspection.

Acting pursuant to delegated authority.

18 June 2018

s 9(2)(a)

s 9(2)(a)

Dear s 9(2)(a)

Subject: Milling Indigenous Timber Without Approval

This letter has been sent to you following the inspection undertaken by a Forestry Officer warranted under the Forests Act 1949, of indigenous timber located at s 9(2)(a), s 9(2)(b)(ii) on 17 May 2018. This inspection was conducted under Section 67R (1) (a) in order to inspect the indigenous timber known to be at that address.

The key points from the inspection were:

- Indigenous timber was on site, salvaged from the Wairoa River; and,
- The milling of indigenous timber without Forests Act approval had occurred.

Under Section 67D (1) of the Forests Act the milling of indigenous timber is prohibited unless:

- the sawmill is registered with the delegated authority in accordance with Section 72; and,
- that the timber has written approval.

Section 67T of the Act provides for the following offence:

Every person commits an offence who-

- (b) mills any indigenous timber contrary to section 67D*

This offence carries a fine not exceeding \$200,000 upon conviction.

On this occasion the decision has been made to **formally warn** you for milling in contravention of Section 67D of the Forests Act 1949.

This decision to warn you is based on the fact that you engaged with MPI to introduce your new saw miller to the legal process prior to the inspection on 17 May 2018. In addition, to your credit, you have been cooperative and forthcoming, accepting responsibility for the actions taken by yourself and your staff.

In explanation you said that your saw miller, s 9(2)(a), was new to the process and had made a mistake, believing that he had submitted an application and received approval for the milling of the timber.

Consideration has also been given to the efforts you have made to bring yourself and your business into compliance since the initial inspection. Your explanation was also deemed plausible given that an incomplete application had been received on 6 March 2018 and that this was the first application to be received from s 9(2)(a).

It is important to note that the registered saw miller is responsible for ensuring compliance with the Forests Act and that their operators act accordingly.

This letter will be retained on file and you are formally warned that in future situations of a similar nature the timber is likely to be seized under Section 67R (1) (e) and you may be liable for prosecution.

I would expect that you will remain compliant in the future and operate your business in line with the requirements of the Forests Act 1949.

Should you have any queries about the content of this letter please contact me via email s 9(2)(a)

Yours faithfully

			Trees	Stumps	Logs
			Trees	Stumps	Logs

Section 3: Include the following with your application

There is space for comments/information on the next page.

A: For ALL timber categories, provide:

- Photographs of the trees/logs (ideally taken before felling/harvesting).
- A map or aerial photograph with the tree locations or extraction area clearly marked. If you cannot provide a map, provide GPS coordinates of the tree locations (NZTM 2000 Coordinate System).

The address of the timber source if it is different to those above.

B: Category-specific supporting information (continued over the page)

Salvaged timber

- Select the source of the timber: Trees that have fallen naturally, OR Trees that were felled to waste before 3 July 1989

NOTE that salvaged timber cannot come from indigenous forest land (land wholly or predominantly under the cover of indigenous vegetation)

Naturally dead or windthrown timber and tree ferns

If the timber is coming from indigenous forest land:

Please describe your harvest method in the box over the page, including any tracking required to access the timber/ferns, and potential damage to the forest and/or its natural values.

For tree ferns, please describe the tree fern resource in the forest (species, average volume, stocking, volume/hectare, etc)

Timber from a Public Work

Attach documents from the relevant council or government agency (or provide a contact person).

Timber from Conservation Land

Attach evidence of Department of Conservation approval.

Timber from a mining operation

Attach a copy of the mine's current work plan.

Timber from the construction or maintenance of an accessway

Mark the location of the structure on your map.

Please explain the purpose of the construction or maintenance in the space below.

Timber felled for scientific research

Attach a copy of the research programme.

Timber first milled before 1 July 1993

Please write a brief explanation of the timber's origin (e.g. species, age, source, original use) in the space below.

Timber from a Planted Indigenous Forest

Mark the location and size of the forest on your map.

If you have one, attach a Planted Indigenous Forest Certificate

If you do NOT have a Planted Indigenous Forest Certificate, please write in the space below what the land use was:

- Before the forest was planted?
- Before the land was prepared for planting?

NOTE: if your planted forest is too small (below 0.05 ha) your application may be processed differently. MPI will contact you if this is the case

Timber from 'Specified Māori land'

What Act was the land originally reserved or granted under? (if you're unsure or have further information, use the space below)

The South Island Landless Māori Act 1906.

Section 12 of the Māori Land Amendment Act 1914.

Section 88 of the Reserves and Other Lands Disposal and Public Bodies Empowering Act 1916.

Section 110 of the Māori Purposes Act 1931.

Comments provided as part of additional information:

APPENDIX A: Definitions from the Forests Act 1949

This appendix provides some definitions and guidance for terms used in the Forests Act. To mill indigenous timber, your sawmill must be registered with MPI: for more information, email Indigenous.Forestry@mpi.govt.nz

NOTE: it is an offence to mill indigenous timber in anticipation of approval.

Indigenous forest land: land wholly or predominantly under the cover of indigenous flora.

Accessway, water impoundment: An accessway must have a bona fide purpose, for example, for a farm track, road, driveway, or access to a building site. A water impoundment is a dam.

Conservation land: land held, managed, or administered by the Crown under the Conservation Act 1987 or any Act listed in Schedule 1 of that Act

Forests sink covenant: timber from an area of forest land covered by a covenant with the purpose of establishing or maintaining a forest sink (e.g. the PFSI).

Mining operation: any operation in connection with mining, exploring, or prospecting for any mineral.

Naturally dead and windthrown: Windthrown trees are trees that have been uprooted, and are now lying on the ground surface, or would be, but are suspended in neighbouring trees. To be classified as naturally dead, there must not be any green foliage on the tree. MPI must be satisfied that the forest's natural values will be maintained.

Planted indigenous forest: timber from indigenous trees or tree ferns planted on land that was not indigenous forest land immediately before planting, or before the land was prepared for planting.

Public work: As defined in the Public Works Act. Examples include being contracted or directed by a local council to remove timber from a park, reserve, beach, or river, or removing timber for the construction of a road. If you're unsure your timber fits the definition, provide as much information as you can.

Salvaged timber: timber from trees that have fallen naturally or were felled to waste before 3 July 1989 (including any stumps or roots remaining from any trees felled before that date). Cannot come from indigenous forest land.

Seized timber: timber that has been seized under the Forests Act and sold, released, or disposed of and MPI has stated in writing that the person to whom the timber is sold, released, or disposed was not involved in the original offence under the Act.

Specified Māori land: timber from land with the status of Māori land or General land owned by Māori, as defined in section 4 of Te Ture Whenua Māori Act 1993, and originally reserved or granted under—

- (a) the South Island Landless Māori Act 1906; or
- (b) section 12 of the Māori Land Amendment Act 1914; or
- (c) section 88 of the Reserves and Other Lands Disposal and Public Bodies Empowering Act 1916; or
- (d) section 110 of the Māori Purposes Act 1931

Timber first milled before 1 July 1993: for example, timber recycled from buildings, furniture, structures, or fence posts.

Tree Ferns: If the tree ferns are coming from indigenous forest land, you must apply for a milling statement before harvesting the ferns, and MPI must be satisfied the harvest is sustainable. The tree ferns cannot come from land subject to a registered sustainable forest management plan or permit.

DISCLAIMER

The information provided is not intended to take place of, or represent, the written law of New Zealand, other official guidelines or requirements or professional advice. It is general information only. Dear Sir

Indigenous Timber Milling Statement

Please find attached an INDIGENOUS TIMBER MILLING STATEMENT, which provides for the milling of indigenous timber;

No. 7-00-03008	9.9 m ³	Kahikatea
	1.6 m ³	Kauri
	2.3 m ³	Matai
	7.2 m ³	Rimu
	9.3 m ³	Totara

The approved volume is log roundwood volume.

This statement does not give a right to access land or a right to the ownership of indigenous timber.

Milling of indigenous timber

Sawmills milling indigenous timbers are required to be registered under the Forests Act 1949. The sawmiller should receive a copy of the Milling Statement.

It is your responsibility to ensure that you meet any other regulatory requirements. Before harvesting, you should check with your relevant Regional or District Council for any compliance requirements with Regional and/or District Plans under the Resource Management Act 1991.

Yours faithfully

s 9(2)(a)

Senior Programmes Advisor

Te Uru Rākau

Forestry New Zealand

INDIGENOUS TIMBER MILLING STATEMENT

Milling Statement No. 7-00-03008

Period to which this milling statement applies: 30/1/2019 to 29/7/2019

This statement is issued to: s 9(2)(a)

Address: s 9(2)(a), s 9(2)(b)(ii)

under Section: 67D(1)(b)(iv)
of the Forests Act 1949 for milling: Salvaged Timber

Timber Species and Volumes:

Species	Number of Trees	Number of Logs	Volume m ³ (Roundwood)
Kahikatea		3	9.9
Rimu		5	7.2
Totara		4	9.3
Matai		2	2.3
Kauri		1	1.6
Total Volume			30.4

Landholding (C/T Identifier(s)): s 9(2)(b)(ii)

Legal Description: Computer Freehold Register Unique Identifier s 9(2)(b)(ii)
Computer Freehold Register Unique Identifier s 9(2)(b)(ii)

General Conditions:

- This statement allows the timber listed above to be milled at any sawmill registered to mill indigenous timber under section 67D(1) of the Forests Act 1949.
- This statement does not confer right, title or ownership to the timber described above.
- Before any felling or harvesting you should check with your relevant Regional or District Council for any resource consent/compliance requirements for such activity under the relevant Regional and/or District Plans.

Other Conditions:

Milling Statement Decision Recommendation

Milling Statement Reference No.	7-00-03008		
Applicant	s 9(2)(a) (Northland Regional Council)		
Date Received	12/12/2018		
Forests Act 1949 Part 3A Section 67D(1)	(b) the Secretary has stated in writing that he or she is satisfied that— (iv) the timber is salvaged timber that has been or will be harvested from an area of land that is not indigenous forest land.		
Applicant has Authority to Apply	Yes, the Northland Regional Council, as owners of the two riverbeds in question, have issued a resource consent for the removal of timber from the riverbeds.		
Application Evidence	The applicant has provided a copy of the resource consent, listing the riverbeds involved, and photos of the logs that have been removed from the river beds. Note that there has been some correspondence over the log volumes, which have been adjusted downwards by s 9(2)(a).		
Site Inspection Undertaken	No		
Recommendation	I recommend that this application for a milling statement be approved. These are salvaged logs which have been in the rivers for many years, and are being removed to improve the rivers.		
Recommendation made by:	s 9(2)(a)	Peer reviewed by:	s 9(2)(a) v
Recommendation date	29/1/2019	Peer review date	30/01/2019

Indigenous Timber Milling Statement APPLICATION FORM

Ministry for Primary Industries
Manatū Ahu Matua

Before issuing a milling statement, MPI must be satisfied the timber meets the circumstances specified in the Forests Act 1949. Providing complete information will help your application be processed as quickly as possible. Send the completed form with attachments to Indigenous.Forestry@mpi.govt.nz, post it to Ministry for Primary Industries, Private Bag 4765, Christchurch 8543, or call MPI on 0800 00 83 33.

Section 1: Personal Details

Applicant's Name: s 9(2)(a)

Phone s 9(2)(a)

Address: s 9(2)(a)

Fax

Email s 9(2)(a), s 9(2)(b)(ii)

Are you the landowner?

YES

NO

If NO, please fill in landowners details below.

Landowner's Name(s): s 9(2)(a)

Phone s 9(2)(a)

Address: s 9(2)(a), s 9(2)(b)(ii)

Fax

Email s 9(2)(a), s 9(2)(b)(ii)

If the applicant is not the landowner, you must include an email or letter of authorisation letter from the landowner.

Section 2: Select all relevant timber categories and provide volume estimates

Definitions are on page 3. If you're not sure, provide background information on the next page.

 (a) Salvaged timber

(d) Naturally dead or windthrown trees

(i) Timber from a planted indigenous forest

(b) Tree ferns

(e) Trees felled for a public work

(j) Timber from a forest sink covenant

(c) Trees felled for the construction/maintenance of an accessway or water impoundment

(f) Trees felled for a mining operation

(k) Timber from Specified Māori land

(g) Trees felled for scientific research

(l) Timber from Conservation Land

(h) Seized timber

(m) Timber first milled before 1 July 1993

Write the letter that corresponds to the category of the timber in the 'Cat.' Column. If more space needed, use the Supplementary Timber Details form.

Cat.	Species	No. of trees/stumps/logs (select one)			Volume (m ³) or length and diameter
A	Kahiketa	Trees	Stumps	3 Logs	
B	Rimu	Trees	Stumps	5 Logs	
C	Totara	3 Trees	Stumps	1 Logs	
D	Matai	1 Trees	Stumps	Logs	
E	Kauri	Trees	Stumps	1 Logs	

Section 3: Include the following with your application

There is space for comments/information on the next page.

A: For ALL timber categories, provide:

Photographs of the trees/logs (ideally taken before felling/harvesting).

A map or aerial photograph with the tree locations or extraction area clearly marked. If you cannot provide a map, provide GPS coordinates of the tree locations (NZTM 2000 Coordinate System).

The address of the timber source if it is different to those above.

B: Category-specific supporting information (continued over the page)

Salvaged timber

Select the source of the timber: Trees that have fallen naturally, OR

Trees that were felled to waste before 3 July 1989

NOTE that salvaged timber cannot come from indigenous forest land (land wholly or predominantly under the cover of indigenous vegetation).

Naturally dead or windthrown timber and tree ferns

If the timber is coming from indigenous forest land:

Please describe your harvest method in the box over the page, including any tracking required to access the timber/ferns, and potential damage to the forest and/or its natural values.

For tree ferns: please describe the tree fern resource in the forest (species, average volume, stocking, volume/hectare, etc).

Timber from a Public Work

Attach documents from the relevant council or government agency (or provide a contact person).

Timber from Conservation Land

Attach evidence of Department of Conservation approval.

Timber from a mining operation

Attach a copy of the mine's current work plan.

Timber from the construction or maintenance of an accessway

Mark the location of the structure on your map.

Please explain the purpose of the construction or maintenance in the space below.

Timber felled for scientific research

Attach a copy of the research programme.

Timber first milled before 1 July 1993

Please write a brief explanation of the timber's origin (e.g. species, age, source, original use) in the space below.

Timber from a Planted Indigenous Forest

Mark the location and size of the forest on your map.

If you have one, attach a Planted Indigenous Forest Certificate.

If you do NOT have a Planted Indigenous Forest Certificate, please write in the space below what the land use was:

- Before the forest was planted?
- Before the land was prepared for planting?

NOTE if your planted forest is too small (below 0.05 ha) your application may be processed differently; MPI will contact you if this is the case

Timber from 'Specified Māori land'

What Act was the land originally reserved or granted under? (If you're unsure or have further information, use the space below)

The South Island Landless Māori Act 1906.

Section 12 of the Māori Land Amendment Act 1914.

Section 88 of the Reserves and Other Lands Disposal and Public Bodies Empowering Act 1916.

Section 110 of the Māori Purposes Act 1931.

Comments provided as part of additional information:

Kahiketa

1 6.6 m = 1993m³

2 7.1 m = 2144m³

3 7.6 m = 5733m³

Rimu

1 5.8 m = 1351m³

2 4.5 m = 1272m³

3 5.8 m = 1866m³

4 5.5 m = 1997m³

5 4.6 m = 764m³

Totra

1a 4.4 m = 1892m³

1b 2.6 m = 1118m³

2 5.5 m = 2765m³

APPENDIX A: Definitions from the Forests Act 1949

This appendix provides some definitions and guidance for terms used in the Forests Act. To mill indigenous timber, your sawmill must be registered with MPI: for more information, email Indigenous.Forestry@mpi.govt.nz.

NOTE: it is an offence to mill indigenous timber in anticipation of approval.

Indigenous forest land: land wholly or predominantly under the cover of indigenous flora.

Accessway, water impoundment: An accessway must have a bona fide purpose, for example, for a farm track, road, driveway, or access to a building site. A water impoundment is a dam.

Conservation land: land held, managed, or administered by the Crown under the Conservation Act 1987 or any Act listed in Schedule 1 of that Act.

Forests sink covenant: timber from an area of forest land covered by a covenant with the purpose of establishing or maintaining a forest sink (e.g. the PFSI).

Mining operation: any operation in connection with mining, exploring, or prospecting for any mineral.

Naturally dead and windthrown: Windthrown trees are trees that have been uprooted, and are now lying on the ground surface, or would be, but are suspended in neighbouring trees. To be classified as naturally dead, there must not be any green foliage on the tree. MPI must be satisfied that the forest's natural values will be maintained.

Planted indigenous forest: timber from indigenous trees or tree ferns planted on land that was not indigenous forest land immediately before planting, or before the land was prepared for planting.

Public work: As defined in the Public Works Act. Examples include being contracted or directed by a local council to remove timber from a park, reserve, beach, or river, or removing timber for the construction of a road. If you're unsure your timber fits the definition, provide as much information as you can.

Salvaged timber: timber from trees that have fallen naturally or were felled to waste before 3 July 1989 (including any stumps or roots remaining from any trees felled before that date). Cannot come from indigenous forest land.

Seized timber: timber that has been seized under the Forests Act and sold, released, or disposed of and MPI has stated in writing that the person to whom the timber is sold, released, or disposed was not involved in the original offence under the Act.

Specified Māori land: timber from land with the status of Māori land or General land owned by Māori, as defined in section 4 of Te Ture Whenua Māori Act 1993, and originally reserved or granted under—

- (a) the South Island Landless Māori Act 1906; or
- (b) section 12 of the Māori Land Amendment Act 1914; or
- (c) section 88 of the Reserves and Other Lands Disposal and Public Bodies Empowering Act 1916; or
- (d) section 110 of the Māori Purposes Act 1931

Timber first milled before 1 July 1993: for example, timber recycled from buildings, furniture, structures, or fence posts.

Tree Ferns: If the tree ferns are coming from indigenous forest land, you must apply for a milling statement before harvesting the ferns, and MPI must be satisfied the harvest is sustainable. The tree ferns cannot come from land subject to a registered sustainable forest management plan or permit.

Resource Consent

Document Date: 10.08.2018

Pursuant to the Resource Management Act 1991, the Northland Regional Council (hereinafter called "the council") does hereby grant a Resource Consent to:

s 9(2)(a)

WHANGAREI 0110

To carry out the following activities:

AUT.040137.01.01 Extract sunken trees and logs from the beds of the following watercourses.

Wairoa river	From Tokatoka at 1686836E 6008993N to its junction with Wairua and Mangakahia Rivers at 1695180E 6038520N
Kaihu River	From Wairoa River, Dargaville at 1678230E 6021840N to its junction with Rotu Stream at 1672233E 6029374N
Awakino River	From Wairoa River at 1680960E 6023322 to Avoca Road at 1676800E 6031673N
Manganui River	From Wairoa River at 1685800E 6026120N to Mititai Road at 1700423E 6019737N
Tauraroa River	From Manganui River at 1697967E 6022865N to the railway bridge at 1700975E 6024477N
Tauroa Stream	From Tauraroa River at 1699670E 6023993N to the railway bridge adjacent to Omana Road at 1698050E 6026826N.
Kirikopuni Stream	From Wairoa River at 1691360E 6034064N to a site adjacent to Kirikopuni Valley Road, approximately 2 km north of its junction with Houto Road at 1688696E 6038097N
Waiohau River and Whekī Stream	From Wairoa River at 1695616E 6035925N to Otuhi Road at 1700613E 6036585N
Mangakahia River	From Wairua River at 1695180E 6038520N to its junction with Omahu Stream, Nukutawhiti at 1678814E 6055287N
Wairua River	From its junction with Mangakahia River at 1695180E 6038520N to the power station at 1696600E 6042410N, and from above Wairua Falls at 1698052E 6043888N to Pipiwai Road at 1704282E 6053960N

Note: All location co-ordinates in this document refer to Geodetic Datum 2000, New Zealand Transverse Mercator Projection.

Subject to the following conditions:

- 1 The Consent Holder shall notify the council's assigned monitoring officer in writing of the date and location of any intended exercise of this consent, not less than two weeks prior to the commencement of those works.

Advice Note: Notification of the commencement of works may be made by email to mailroom@nrc.govt.nz.

- 2 All access and egress to water bodies for barges and logs shall be at existing landing sites or crossings, unless the barge is lifted by crane directly into the waterbody.
- 3 Written permission of landowners whose properties adjoin that section of river affected by these works shall be obtained prior to the exercise of this consent at that location. A copy of the landowner permissions shall be provided to the council's assigned monitoring officer immediately upon request. No new earthworks for vehicle access over, or through, any river bank shall be carried out for the purpose of extracting logs.
- 4 The Consent Holder shall not exercise this consent in areas which adversely affect banks or bank margins containing native aquatic plants including mangroves, salt marshes, raupo, flax, sedges, and rushes
- 5 Any logs, sinkers, timber and objects extracted from the river shall be placed above flood level within 48 hours of their extraction.
- 6 The Consent Holder shall provide notice to the Department of Conservation, in writing, at least 10 days prior to operating in any river where the depth of water is less than 0.7 metres. The notice shall contain the proposed location of the works, the date and expected duration of the works. Evidence of this notification shall be provided to the council's assigned monitoring officer.
- 7 The Consent Holder shall maintain a written record of all logs, timber, sinkers and other objects salvaged. A copy of this information shall be provided to the council for inspection, within 48 hours of a written request from the Council's Compliance Manager.
- 8 This consent shall lapse on the 30 August 2023, unless before this date the consents have been given effect to.

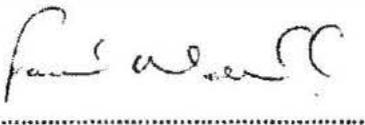

Advice Note: An application can be made to the Council in accordance with Section 125 of the Act to extend the date after which the consents lapse. Such an application must be made before the consents lapse.

- 9 The council may, in accordance with section 128 of the Resource Management Act 1991, serve notice on the Consent Holder of its intention to review the conditions annually during the month of May to deal with any adverse effects on the environment that may arise from the exercise of the consent and which it is appropriate to deal with at a later stage.

The Consent Holder shall meet all reasonable costs of any such review.

EXPIRY DATE: 30 JUNE 2043

This consent is granted this Tenth day of August 2018 under delegated authority from the Council by:

Paul Maxwell
Coastal & Works Consents Manager

Morning s 9(2)(a)

I am busy processing your milling application and have some questions around the calculated timber volumes and the unit used, since the figures are quite high.

Would you say the numbers below are a more accurate representation of the timber to be milled?

Dear Sir

Indigenous Timber Milling Statement

Please find attached an INDIGENOUS TIMBER MILLING STATEMENT, which provides for the milling of indigenous timber;

No. 7-00-03035	2.7 m ³	Kahikatea
	4.1 m ³	Matai
	19.3 m ³	Rimu
	3.3 m ³	Totara

The approved volume is log roundwood volume.

This statement does not give a right to access land or a right to the ownership of indigenous timber.

Milling of indigenous timber

Sawmills milling indigenous timbers are required to be registered under the Forests Act 1949. The sawmiller should receive a copy of the Milling Statement.

It is your responsibility to ensure that you meet any other regulatory requirements. Before harvesting, you should check with your relevant Regional or District Council for any compliance requirements with Regional and/or District Plans under the Resource Management Act 1991.

faithfully

s 9(2)(a)

Senior Programmes Advisor

Milling Statement Decision Recommendation

Milling Statement Reference No.	7-00-03035		
Applicant	s 9(2)(a) (Northland Regional Council)		
Date Received	15/3/2019		
Forests Act 1949 Part 3A Section 67D(1)	(b) the Secretary has stated in writing that he or she is satisfied that— (iv) the timber is salvaged timber that has been or will be harvested from an area of land that is not indigenous forest land.		
Applicant has Authority to Apply	Yes, the Northland Regional Council, as owners of the two riverbeds in question, have issued a resource consent for the removal of timber from the riverbeds.		
Application Evidence	The applicant has provided a copy of the resource consent, listing the riverbeds involved, and photos of the logs that have been removed from the river beds.		
Site Inspection Undertaken	No		
Recommendation	I recommend that this application for a milling statement be approved. These are salvaged logs which have been in the rivers for many years, and are being removed to improve the rivers. This Milling Statement covers the continuation of this work, previously carried out under Milling Statement 7-00-03008.

Indigenous Timber Milling Statement APPLICATION FORM

Ministry for Primary Industries
Manatū Ahu Matua

Before issuing a milling statement, MPI must be satisfied the timber meets the circumstances specified in the Forests Act 1949. Providing complete information will help your application be processed as quickly as possible. Send the completed form with attachments to Indigenous.Forestry@mpi.govt.nz, post it to Ministry for Primary Industries, Private Bag 4765, Christchurch 8543, or call MPI on 0800 00 83 33.

Section 1: Personal Details

Applicant's Name: s 9(2)(a) Phone: s 9(2)(a)
 Address: s 9(2)(a) Fax:
 Email: s 9(2)(a), s 9(2)(b)(ii)

Are you the landowner? YES NO *If NO, please fill in landowners details below.*

Landowner's Name(s): s 9(2)(a) Phone: s 9(2)(a)
 Address: s 9(2)(a), s 9(2)(b)(ii) Fax:
 Email: s 9(2)(a), s 9(2)(b)(ii)

If the applicant is not the landowner, you must include an email or letter of authorisation letter from the landowner.

Section 2: Select all relevant timber categories and provide volume estimates

Definitions are on page 3. If you're not sure, provide background information on the next page.

- (a) Salvaged timber
- (b) Tree ferns
- (c) Trees felled for the construction/maintenance of an accessway or water impoundment
- (d) Naturally dead or windthrown trees
- (e) Trees felled for a public work
- (f) Trees felled for a mining operation
- (g) Trees felled for scientific research
- (h) Seized timber
- (i) Timber from a planted indigenous forest
- (j) Timber from a forest sink covenant
- (k) Timber from Specified Māori land
- (l) Timber from Conservation Land
- (m) Timber first milled before 1 July 1993

Write the letter that corresponds to the category of the timber in the 'Cat.' Column. If more space needed, use the Supplementary Timber Details form.

Cat.	Species	No. of trees/stumps/logs (select one)			Volume (m ³) or length and diameter
		Trees	Stumps	Logs	
A	Rimu			8 Logs	19.343m ³
B	Totora			2 Logs	3.279m ³
C	Matai			2 Logs	4.109m ³
D	Kahikatea			1 Logs	2.722m ³

Section 3: Include the following with your application

There is space for comments/information on the next page.

A: For ALL timber categories, provide:

- Photographs of the trees/logs (ideally taken before felling/harvesting).
- A map or aerial photograph with the tree locations or extraction area clearly marked. If you cannot provide a map, provide GPS coordinates of the tree locations (NZTM 2000 Coordinate System).
- The address of the timber source if it is different to those above.

B: Category-specific supporting information (continued over the page)

Salvaged timber

Select the source of the timber: Trees that have fallen naturally, OR
 Trees that were felled to waste before 3 July 1989

NOTE that salvaged timber cannot come from indigenous forest land (land wholly or predominantly under the cover of indigenous vegetation).

Naturally dead or windthrown timber and tree ferns

If the timber is coming from indigenous forest land:

- Please describe your harvest method in the box over the page, including any tracking required to access the timber/ferns, and potential damage to the forest and/or its natural values.
- For tree ferns: please describe the tree fern resource in the forest (species, average volume, stocking, volume/hectare, etc).

Timber from a Public Work

Attach documents from the relevant council or government agency (or provide a contact person).

Timber from Conservation Land

Attach evidence of Department of Conservation approval.

Timber from a mining operation

Attach a copy of the mine's current work plan.

Timber from the construction or maintenance of an accessway

Mark the location of the structure on your map.

Please explain the purpose of the construction or maintenance in the space below.

Timber felled for scientific research

Attach a copy of the research programme.

Timber first milled before 1 July 1993

Please write a brief explanation of the timber's origin (e.g. species, age, source, original use) in the space below.

Timber from a Planted Indigenous Forest

Mark the location and size of the forest on your map.

If you have one, attach a Planted Indigenous Forest Certificate.

If you do NOT have a Planted Indigenous Forest Certificate, please write in the space below what the land use was:

- Before the forest was planted?
- Before the land was prepared for planting?

NOTE if your planted forest is too small (below 0.05 ha) your application may be processed differently; MPI will contact you if this is the case.

Timber from 'Specified Māori land'

What Act was the land originally reserved or granted under? (If you're unsure or have further information, use the space below)

The South Island Landless Māori Act 1906.

Section 12 of the Māori Land Amendment Act 1914.

Section 88 of the Reserves and Other Lands Disposal and Public Bodies Empowering Act 1916.

Section 110 of the Māori Purposes Act 1931.

APPENDIX A: Definitions from the Forests Act 1949

This appendix provides some definitions and guidance for terms used in the Forests Act. To mill indigenous timber, your sawmill must be registered with MPI: for more information, email Indigenous.Forestry@mpi.govt.nz.

NOTE: it is an offence to mill indigenous timber in anticipation of approval.

Indigenous forest land: land wholly or predominantly under the cover of indigenous flora.

Accessway, water impoundment: An accessway must have a bona fide purpose, for example, for a farm track, road, driveway, or access to a building site. A water impoundment is a dam.

Conservation land: land held, managed, or administered by the Crown under the Conservation Act 1987 or any Act listed in Schedule 1 of that Act.

Forests sink covenant: timber from an area of forest land covered by a covenant with the purpose of establishing or maintaining a forest sink (e.g. the PFSI).

Mining operation: any operation in connection with mining, exploring, or prospecting for any mineral.

Naturally dead and windthrown: Windthrown trees are trees that have been uprooted, and are now lying on the ground surface, or would be, but are suspended in neighbouring trees. To be classified as naturally dead, there must not be any green foliage on the tree. MPI must be satisfied that the forest's natural values will be maintained.

Planted indigenous forest: timber from indigenous trees or tree ferns planted on land that was not indigenous forest land immediately before planting, or before the land was prepared for planting.

Public work: As defined in the Public Works Act. Examples include being contracted or directed by a local council to remove timber from a park, reserve, beach, or river, or removing timber for the construction of a road. If you're unsure your timber fits the definition, provide as much information as you can.

Salvaged timber: timber from trees that have fallen naturally or were felled to waste before 3 July 1989 (including any stumps or roots remaining from any trees felled before that date). Cannot come from indigenous forest land.

Seized timber: timber that has been seized under the Forests Act and sold, released, or disposed of and MPI has stated in writing that the person to whom the timber is sold, released, or disposed was not involved in the original offence under the Act.

Specified Māori land: timber from land with the status of Māori land or General land owned by Māori, as defined in section 4 of Te Ture Whenua Māori Act 1993, and originally reserved or granted under—

- (a) the South Island Landless Māori Act 1906; or
- (b) section 12 of the Māori Land Amendment Act 1914; or
- (c) section 88 of the Reserves and Other Lands Disposal and Public Bodies Empowering Act 1916; or
- (d) section 110 of the Māori Purposes Act 1931

Timber first milled before 1 July 1993: for example, timber recycled from buildings, furniture, structures, or fence posts.

Tree Ferns: If the tree ferns are coming from indigenous forest land, you must apply for a milling statement before harvesting the ferns, and MPI must be satisfied the harvest is sustainable. The tree ferns cannot come from land subject to a registered sustainable forest management plan or permit.

Hi s 9(2)(a)

Please see below our consent of operations for harvesting native logs as discussed yesterday granted for the next 25 years by both affected Iwi and the NRC.

Many thanks and if you have any further questions please don't hesitate.

Released under the Official Information Act 1982

Resource Consent

Document Date: 10.08.2018

Pursuant to the Resource Management Act 1991, the Northland Regional Council (hereinafter called "the council") does hereby grant a Resource Consent to:

s 9(2)(a)

WHANGAREI 0110

To carry out the following activities:

AUT.040137.01.01 Extract sunken trees and logs from the beds of the following watercourses.

Wairoa river	From Tokatoka at 1686836E 6008993N to its junction with Wairua and Mangakahia Rivers at 1695180E 6038520N
Kaihu River	From Wairoa River, Dargaville at 1678230E 6021840N to its junction with Rotu Stream at 1672233E 6029374N
Awakino River	From Wairoa River at 1680960E 6023322 to Avoca Road at 1676800E 6031673N
Manganui River	From Wairoa River at 1685800E 6026120N to Mititai Road at 1700423E 6019737N
Tauraroa River	From Manganui River at 1697967E 6022865N to the railway bridge at 1700975E 6024477N
Tauroa Stream	From Tauraroa River at 1699670E 6023993N to the railway bridge adjacent to Omana Road at 1698050E 6026826N.
Kirikopuni Stream	From Wairoa River at 1691360E 6034064N to a site adjacent to Kirikopuni Valley Road, approximately 2 km north of its junction with Houto Road at 1688696E 6038097N
Waiotama River and Wheki Stream	From Wairoa River at 1695616E 6035925N to Otuhi Road at 1700613E 6036585N
Mangakahia River	From Wairua River at 1695180E 6038520N to its junction with Omahu Stream, Nukutawhiti at 1678814E 6055287N
Wainia River	From its junction with Mangakahia River at 1695180E 6038520N to the power station at 1696600E 6042410N, and from above Wairua Falls at 1698052E 6043888N to Pipiwai Road at 1704282E 6053960N

Note: All location co-ordinates in this document refer to Geodetic Datum 2000, New Zealand Transverse Mercator Projection.

Subject to the following conditions:

- 1 The Consent Holder shall notify the council's assigned monitoring officer in writing of the date and location of any intended exercise of this consent, not less than two weeks prior to the commencement of those works.

Advice Note: Notification of the commencement of works may be made by email to mailroom@nrc.govt.nz.

- 2 All access and egress to water bodies for barges and logs shall be at existing landing sites or crossings, unless the barge is lifted by crane directly into the waterbody.
- 3 Written permission of landowners whose properties adjoin that section of river affected by these works shall be obtained prior to the exercise of this consent at that location. A copy of the landowner permissions shall be provided to the council's assigned monitoring officer immediately upon request. No new earthworks for vehicle access over, or through, any river bank shall be carried out for the purpose of extracting logs.
- 4 The Consent Holder shall not exercise this consent in areas which adversely affect banks or bank margins containing native aquatic plants including mangroves, salt marshes, raupo, flax, sedges, and rushes
- 5 Any logs, sinkers, timber and objects extracted from the river shall be placed above flood level within 48 hours of their extraction.
- 6 The Consent Holder shall provide notice to the Department of Conservation, in writing, at least 10 days prior to operating in any river where the depth of water is less than 0.7 metres. The notice shall contain the proposed location of the works, the date and expected duration of the works. Evidence of this notification shall be provided to the council's assigned monitoring officer.
- 7 The Consent Holder shall maintain a written record of all logs, timber, sinkers and other objects salvaged. A copy of this information shall be provided to the council for inspection, within 48 hours of a written request from the Council's Compliance Manager.
- 8 This consent shall lapse on the 30 August 2023, unless before this date the consents have been given effect to.

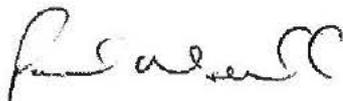

Advice Note: An application can be made to the Council in accordance with Section 125 of the Act to extend the date after which the consents lapse. Such an application must be made before the consents lapse.

- 9 The council may, in accordance with section 128 of the Resource Management Act 1991, serve notice on the Consent Holder of its intention to review the conditions annually during the month of May to deal with any adverse effects on the environment that may arise from the exercise of the consent and which it is appropriate to deal with at a later stage.

The Consent Holder shall meet all reasonable costs of any such review.

EXPIRY DATE: 30 JUNE 2043

This consent is granted this Tenth day of August 2018 under delegated authority from the Council by:

Paul Maxwell
Coastal & Works Consents Manager
