

MINISTRY FOR PRIMARY INDUSTRIES
IMPORTING COUNTRIES PHYTOSANITARY
REQUIREMENTS
FIJI

Status: Approved

Date: 30 June 2001

EXPORTERS ARE ADVISED TO CONFIRM THE
PHYTOSANITARY IMPORT REQUIREMENTS PRIOR
TO EXPORT FROM NEW ZEALAND

Amendment Record

Amendment No.	Date:	Nature of amendment:	Approved by:
22	16 April 2019	Removed additional declaration for fruit fly host material in sections 3.1.1 and 4.1.1, Fresh fruit and vegetables, after correspondence from Fiji that it is no longer needed.	SH
21	20 March 2019	Updated sections 3.1.1 and 4.1.1, general and commodity specific requirements for fruit fly host material to include Fiji's stipulated additional declaration.	SH
20.	04 May 2017	Updated links to MPI website. Amended spelling mistakes. Added table heading to table.	HK
19	09 March 2017	Reformatted presentation of the amendment record starting with the most recent record. Updated the disclaimer and general information. Formatting changed to be consistent with other ICPRs. Added fees and charges section 1.4. Removed Maximum Pest List, section 2.5. MPL is covered in the MPI	HK

Amendment No.	Date:	Nature of amendment:	Approved by:
		<p>Certification Standard and is not within the scope of the ICPR.</p> <p>Added additional declaration for fresh potatoes section 4.1.1</p> <p>Reformatted the presentation of quarantine pests by providing the pest type, order, family and common names; correcting misspelt scientific names and providing synonyms.</p>	
18	03 July 2014	<p>Changed MAF to MPI throughout the document to reflect MPI name change.</p> <p>Changed Fiji MAFF to Biosecurity Authority to reflect name change.</p> <p>Updated MPI contact details, sections 1.1 and 1.2.</p> <p>Corrected contact number for the Biosecurity Authority of Fiji section 2.2.3</p> <p>Section 2.5 renamed 'MPI specified Maximum Pest Limits (MPL)'</p> <p>Additional section for wood packaging, section 2.10.</p> <p>Corrected spelling error section 4.6.</p>	JN
17	27 June 2011	Amendments to the import requirements for tomatoes and capsicum Section 4.1.1	CB
16	11 February 2011	Import requirements for Celery. Section 4.1.1	VK
15.	1 October 2009	Import requirements for yellow pea flour to Fiji.	GI
14.	23 September 2009	Addition of contact details for Fiji quarantine authority - Biosecurity Bill for Fiji 2008. Biosecurity Promulgation 2008 (No.28 of 2008).	GI
13.	15 July 2009	Import requirements for tapioca starch. Section 4.6	GI
12.	7 August 2008	Clarification of requirements for potato tubers	IV/SW
11.	31 July 2008	Amendment of requirements for potato tubers, capsicums and tomatoes Sec. 4.1.1.	SW

Amendment No.	Date:	Nature of amendment:	Approved by:
		Amendment of Sec. 2.1 Prohibitions.	
10.	22 March 2007	Amendment of MAF contact details Section 1.1	SW
6.	1 February 2005	Amendment of MAF contact details Section 1.1 and 1.2. Minor reformatting of document.	WJH
5.	14 December 2004	Amendment of MAF contact details, refer Section 1.1. Correction of spelling errors in document.	WJH
4.	23 June 2003	Inclusion of requirements for roasted peanuts. Amendment to MAF contact details. Addition of requirements for cut flowers / stems of <i>Leucadendron</i> spp. General reformatting of document. Addition of requirements for re-exported garlic from China. Inclusion of new Contact fax number for Fiji.	WJH
3.	14 February 2003	Renaming and reformatting of standard. Amendment to Section 2.5 re MPLs.	WJH
2.	1 August, 2001	Addition of EPS requirements for <i>Brassica</i> spp., <i>Citrus</i> spp., <i>Solanum tuberosum</i> , Seed for sowing and Sphagnum moss. Also minor formatting changes	WJH
1.	30 June, 2001	Issue of EPS	WJH

DISCLAIMER

The information in this standard is provided on the following basis. The phytosanitary requirements found in this standard may be used as the basis of export certification. However, requirements may be changed by importing countries at any time at short notice or with no notice to New Zealand.

This information is provided strictly on the basis that the Crown, the Ministry for Primary Industries, its statutory officers, employees, agents and all other persons responsible for or associated with the compilation, writing, editing, approval or publication of the information:

1. disclaim any and all responsibility for any inaccuracy, error, omission, lateness, or any other kind of inadequacy, deficiency or flaw in, or in relation to, the information;
and
2. without limiting (1) above, fully exclude any and all liability of any kind on the part of all of them, to any person or entity that chooses to rely on this information

Compliance with this standard is not to be taken as a guarantee that any particular goods will be granted access to any overseas market. We recommend that exporters work with their importers to obtain the most up-to-date information.

1 General Information

Users of this document are strongly advised to read all sections to understand the phytosanitary requirements for a commodity.

1.1 For enquires about this standard email the Plant Exports Group:

plantexports@mpi.govt.nz

To help Exports process your email please record in the subject line of your email descriptive keywords which are relevant to your enquiry i.e. ICPR enquiry-Country-specific details.

For urgent enquiries phone or fax the Plant Exports Group

- Telephone:+ 64 4 894 5693 Fax: 64 4 894 0733
- Email: plantexports@mpi.govt.nz

1.2 Scope

The requirements listed in this ICPR apply to product of New Zealand only, unless specifically stated.

This standard specifies Fiji's phytosanitary requirements for the stated commodities and commodity classes only. If a commodity class is not listed under Section 3 "Commodity Class Requirements" or Section 4 "Commodity Specific Requirements" exporters should contact:

- Biosecurity Authority of Fiji directly to ascertain requirements. Refer Section 2.2.3

or

- Ministry for Primary Industries (Plant Exports).

1.3 Phytosanitary Legislation

The following legislation controls the importation of plants and plant materials into Fiji:

- Plant Quarantine Act 1982 and Regulations
- Biosecurity Promulgation 2008

1.4 Fees and Charges

- Please note that the determination and provision of phytosanitary requirements for a commodity not listed within the ICPR may be undertaken on a cost recovered basis. A link to the list of Plant Exports

Fees and Charges is available on <http://mpi.govt.nz/exporting/food/fruit-and-vegetables/fees-and-charges/>

2 General Requirements

2.1 Prohibitions

The following commodities are prohibited importation into Fiji from New Zealand: *ref fax 17th January 2001*

Table 1 List of commodities prohibited entry to Fiji

Scientific name	Common name	Plant part prohibited
	Chaff	All
	Hay	All
	Soil	All
	Straw	All

2.2 Phytosanitary Import Permits

Note: Additional declarations given in this ICPR are indicative only, and are provided to guide exporters on conditions that Fiji have previously required. Exporters should refer to conditions identified upon their current phytosanitary import permit.

2.2.1 Phytosanitary import permits state the phytosanitary requirements for importation

2.2.2 Phytosanitary import permits are required for the importation of all commodity classes from New Zealand

2.2.3 Phytosanitary import permits may be requested from

Senior Agricultural Officer (Quarantine)
Biosecurity Authority of Fiji,
GPO Box 1836
Suva
Fiji

Telephone: +(679) 3312 512 or +(679) 3312511
Fax: +(679) 3315043

2.3 Phytosanitary Certificates

Phytosanitary certificates are required to accompany consignments of all commodity classes imported from New Zealand unless specified.

2.4 Quarantine Pests

For a list of quarantine pests refer to Appendix 1. The scientific name and classification used is checked for accuracy against the European and Mediterranean Plant Protection Organisation (EPPO) Global database (<https://gd.eppo.int/>). Please note the scientific name remains as the definitive name. In addition, MPI will also include synonyms specified by the importing country for use on additional declarations.

Quarantine pests for Fiji include organisms specified in Appendix 1 of this ICPR, additional declarations and/or import permit.

To request a copy of the pest list (Appendix 1) in excel format, please refer to section 1.1.

2.5 Ports of Entry

Items of quarantine concern may only be imported through declared Ports of Entry as stated on the phytosanitary import permit. *ref Plant Quarantine Act 1982*

2.6 Inspection on Arrival

All consignments of imported plant material are subject to visual inspection by Biosecurity Authority of Fiji for phytosanitary purposes upon arrival. *ref Questionnaire 1997*

2.7 Sampling Rate

Rate of sampling upon arrival is 5% (of the consignment), selected at random.

2.8 Transit

Unknown

2.9 Wood packaging

Refer to Forestry ICPR for Fiji, link below:

<http://www.mpi.govt.nz/law-and-policy/requirements/importing-countries-phytosanitary-requirements/forestry-icprs/fiji/>

3 Commodity Class Requirements

All commodities must be shipped in sound, new and clean packages.

3.1 Fruit and Vegetables

3.1.1 Fresh Fruit and Vegetables

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.1.2 Dried Fruit and Vegetables

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.1.3 Frozen Fruit and Vegetables

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.2 Cut Flowers and Foliage

3.2.1 Fresh Cut Flowers and Foliage

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.2.2 Dried Cut Flowers and Foliage

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.3 Nursery Stock

3.3.1 Bud Wood / Cuttings

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.3.2 Bulbs / tubers / corms / rhizomes etc (for propagation)

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.3.3 Whole Plants

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.4 Seeds, Grains and Nuts

3.4.1 Seeds, Grains and Nuts for Sowing

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and treatment (fungicide) required.

3.4.2 Seeds, Grains and Nuts for Processing

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.4.3 Seeds, Grains and Nuts for Consumption

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

3.5 Growing Media and Packing Material

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

4 Commodity Specific Requirements

ref 23.4.01/ fax ref No 69/5/10 18.1.01 / fax 31.07.01

Note: Additional declarations given below are indicative only, and are provided to guide exporters on conditions that Fiji have previously required. Exporters should refer to conditions identified upon their current phytosanitary import permit.

4.1 Fruit and Vegetables

4.1.1 Fresh Fruit and Vegetables

Actinidia deliciosa

Kiwifruit

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Allium cepa

Onion

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Allium porrum

Leek

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Allium sativum

Garlic

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Apium graveolens

Celery

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Re-exported garlic from China

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Additional declaration:

"This consignment of garlic from China has fulfilled all the Ministry for Primary Industries import quarantine requirements and had been allowed to be retailed in New Zealand"

Asparagus spp.

Asparagus

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Brassica spp.

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate and treatment required. Product must be trimmed, free of soil and foreign matter. Outer leaves must be removed where applicable.

Treatment:

Fumigation with Methyl Bromide at a rate of 32 gms per cubic metre for 2 hours at a temperature of not less than 21 degrees celcius. Product not to be wrapped in polythene during fumigation. Treatment to be endorsed on phytosanitary certificate.

Capsicum annuum

Capsicum

Conditions:

Import permit required. Phytosanitary certificate required. Capsicums may be exported under one of the two following options.

Option 1: Systems Approach.

Capsicums must be sourced from a MPI registered glasshouse that has mitigating measures in place to control psyllid populations.

Additional Declaration required

"Capsicums were brushed or washed to remove any and all stages of psyllid".

OR

Option 2: Capsicums not produced under the systems approach mandatory methyl bromide fumigation at one of the following rates:

- 48g/m³ for 2 hours at 10⁰-15⁰C

- 40g/m³ for 2 hours at 16⁰-20⁰C

- 32g/m³ for 2 hours at 21⁰C

The treatment must be endorsed in the 'Treatments Section' of the phytosanitary certificate.

Citrus hybrid

Grapefruit

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate and treatment required.

Treatment:

Fumigation with Methyl Bromide at a rate of 48 gms per cubic metre for 2 hours at a temperature of not less than 21 degrees celsius. Treatment to be endorsed upon Phytosanitary Certificate.

Citrus limon

Lemon

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate and treatment required.

Treatment:

Fumigation with Methyl Bromide at a rate of 48 gms per cubic metre for 2 hours at a temperature of not less than 21 degrees Celsius. Treatment to be endorsed upon Phytosanitary Certificate.

Citrus reticulata

Mandarin

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate and treatment required.

Treatment:

Fumigation with Methyl Bromide at a rate of 48 gms per cubic metre for 2 hours at a temperature of not less than 21 degrees Celsius. Treatment to be endorsed upon Phytosanitary Certificate.

Citrus sinensis

Orange

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate and treatment required.

Treatment:

Fumigation with Methyl Bromide at a rate of 48 gms per cubic metre for 2 hours at a temperature of not less than 21 degrees Celsius. Treatment to be endorsed on phytosanitary certificate.

Cucumis melo

Melon

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Cucurbita pepo

Pumpkin/ Squash/ Zucchini

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Daucus carota

Carrot

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Diospyros spp.

Persimmon

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Fragaria spp.

Strawberry

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Ipomoea batatas

Kumara

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Lycopersicon esculentum

Tomato

Conditions:

Import permit required. Phytosanitary certificate required. Loose tomatoes may be exported under one of the two following options.

Option 1: Systems Approach.

Loose tomatoes must be sourced from a MPI registered glasshouse that has mitigating measures in place to control psyllid populations.

Additional Declaration required "Tomatoes were brushed or washed to remove any and all stages of psyllid".

OR

Option 2: Loose tomatoes not produced under the systems approach mandatory methyl bromide fumigation at one of the following rates:

- 48g/m³ for 2 hours at 10⁰-15⁰C

- 40g/m³ for 2 hours at 16⁰-20⁰C

- 32g/m³ for 2 hours at 21⁰C

The treatment must be endorsed in the 'Treatments Section' of the phytosanitary certificate.

Note: Truss tomatoes can only be exported under option 2.

Malus sylvestris var. pumila

Apple

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Persea americana

Avocado

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Prunus armeniaca

Apricot

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Prunus avium

Cherry

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Prunus persica

Peach/Nectarine

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Pyrus spp.

Pear

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Pyrus pyrifolia

Nashi

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Solanum tuberosum

Potato

Conditions:

Phytosanitary import permit required. Phytosanitary certificate with additional declaration and treatment required. All export **consignments** must be subjected to a standard phytosanitary inspection and be found free of soil, damage, rots, diseases, other foreign matter and growing buds (growth that is less than 1mm is acceptable).

Note: Potatoes with visible bud growth (over 1mm) must be devitalised and treatment details included in the treatment section of the certificate.

Additional declaration:

"Grown in an area entirely free from, *Globodera rostochiensis* (Golden Nematode) and *Synchytrium endobioticum* (Potato wart)"

AND

"Treated with an appropriate sprout inhibiting agency (active ingredient and rate of application of the inhibitor)."

Vaccinium corymbosum

Blueberry

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

4.1.2 Dried Fruit and Vegetables

Refer Section 3.1.2

4.1.3 Frozen Fruit and Vegetables

Refer Section 3.1.3

4.2 Cut Flowers and Foliage

4.2.1 Fresh Cut Flowers and Foliage

Chrysanthemum spp.

Chrysanthemum

Conditions:

Phytosanitary import permit required (consignment basis). Phytosanitary certificate required.

Dianthus caryophyllus

Carnation

Conditions:

Phytosanitary import permit required (consignment basis). Phytosanitary certificate required.

Leucadendron spp.

Leucadendron

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and treatment required. Devitalisation required.

Treatment:

"The consignment stems were immersed or dipped in a solution of Glyphosphate (Roundup) solution at a concentration of 1% Glyphosphate or 10mls/ ltr." Treatment to be endorsed on phytosanitary certificate.

Orchidaceae

Orchid

Conditions:

Phytosanitary import permit required (consignment basis). Phytosanitary certificate required.

Rosa spp.

Rose

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and treatment required. Devitalisation required.

Treatment:

"The consignment stems were immersed or dipped in a solution of Glyphosphate (Roundup) solution at a concentration of 1% Glyphosphate or 10mls/ ltr". Treatment to be endorsed on the phytosanitary certificate.

Tulipa spp.

Tulip

Conditions:

Phytosanitary import permit required (consignment basis). Phytosanitary certificate required.

Zantedeschia spp.

Calla Lily

Conditions:

Phytosanitary import permit required (consignment basis). Phytosanitary certificate required.

4.2.2 Dried Cut Flowers and Foliage

Refer Section 3.2.2

4.3 Nursery Stock

4.3.1 Budwood and Cuttings

Refer Section 3.3.1

4.3.2 Bulbs/tubers/corms/rhizomes (for propagation)

Lilium spp.

Lily

Conditions:

Phytosanitary import permit required (consignment basis). Phytosanitary certificate and treatment required.

Treatment:

As specified upon the import permit.

Narcissus spp.

Daffodil

Conditions:

Phytosanitary import permit required (consignment basis). Phytosanitary certificate and treatment required.

Treatment:

As specified upon the import permit.

Zantedeschia spp

Calla Lily

Conditions:

Phytosanitary import permit required (consignment basis). Phytosanitary certificate and treatment required.

Treatment:

As specified upon the import permit.

4.3.3 Whole Plants

Refer Section 3.3.3

4.4 Seeds, Grains and Nuts

4.4.1 Seeds, Grains and Nuts for Sowing

Cicer arietinum

Chickpea

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and treatment required.

Treatment

As specified upon the import permit.

Pisum spp.

Pea

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and treatment required.

Treatment

As specified upon the import permit.

4.4.2 Seed and Grains for Processing

Cicer arietinum

Chickpea

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Pisum spp.

Pea

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

4.4.3 Seeds, Grains and Nuts for Consumption

Cicer arietinum

Chickpea

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Pisum spp.

Pea

Conditions:

Phytosanitary import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Arachis spp.

Roasted Peanuts

Conditions:

For peanuts, which are roasted, salted, commercially processed and non-viable. Phytosanitary import permit not required. Phytosanitary certificate not required. Inspected upon arrival.

4.5 Growing Media and Packing Material

Sphagnum spp.

Sphagnum moss

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Must be sterile and commercially packed.

4.6 Miscellaneous

Tapioca starch

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Yellow pea flour

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Appendix 1. Quarantine Pests as notified by Fiji

PEST TYPE	ORDER NAME	FAMILY NAME	GENUS AND SPECIES NAME	COMMON NAME
Arachnids (mites and spiders)	Ixodida	Ixodidae	<i>Rhipicephalus microplus</i> syn. <i>Boophilus microplus</i>	cattle tick
Nematodes (round worms)	Tylenchida	Heteroderidae	<i>Globodera rostochiensis</i>	golden nematode, yellow potato cyst nematode
Bacterial diseases	Actinomycetales	Microbacteriaceae	<i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i> syn. <i>Corynebacterium sepedonicum</i>	Potato ring rot, bacterial ring rot of potato, vascular wilt of potato
Fungal diseases	Chytridiomycetes	Chytridiales	<i>Synchytrium endobioticum</i>	black wart of potato, wart of potato, black scab of potato
Plants (Weeds)	Asterales	Asteraceae	<i>Elephantopus mollis</i>	tobacco weed, soft elephants foot
			<i>Pseudelephantopus spicatus</i> syn. <i>Elephantopus spicatus</i>	Yasawa tobacco weed, packyweed, spiked elephant foot, dogs-tongue
			<i>Xanthium pungens</i>	noogoora burr
	Caryophyllales	Cactaceae	<i>Opuntia humifusa</i> syn. <i>Opuntia vulgaris</i>	eastern prickly pear
	Commelinales	Pontederiaceae	<i>Eichhornia crassipes</i>	common water hyacinth
	Fabales	Fabaceae	<i>Acacia farnesiana</i>	cassie flower, ellington curse, mimosa bush, scented wattle, sweet wattle
			<i>Derris elliptica</i>	duva ni valalagi, derris
			<i>Derris trifoliata</i> *	duva
			<i>Mimosa diplotricha</i> syn. <i>Mimosa invisa</i>	giant sensitive plant
	Lamiales	Lamiaceae	<i>Clerodendrum chinense</i> ¹	chinese glory bower
<i>Hyptis pectinata</i>			mint weed, comb hyptis	
Verbenaceae		<i>Lantana camara</i>	lantana	

Source: Preferred name and classification used is checked for accuracy against the European and Mediterranean Plant Protection Organisation (EPPO) Global database (<https://gd.eppo.int/>), 16 March 2017

¹ Preferred name and classification taken from Cabi Invasive Species Compendium (www.cabi.org), 16 March 2017

* No source available, 16 March 2017

PEST TYPE	ORDER NAME	FAMILY NAME	GENUS AND SPECIES NAME	COMMON NAME
Plants (Weeds)	Malvales	Malvaceae	<i>Sida acuta</i>	broomweed
			<i>Urena lobata</i>	hibiscus burr, aramina plant, urena burr, congo jute, indian mallow
	Myrtales	Melastomataceae	<i>Clidemia hirta</i>	hairy clidemia, koster's curse, soap bush
		Myrtaceae	<i>Psidium guajava</i>	common guava
	Poales	Cyperaceae	<i>Cyperus aromaticus</i>	nauva sedge
		Poaceae	<i>Ischaemum rugosum</i>	muraina grass, winkle grass, muriano grass, saramatta grass
			<i>Sorghum halepense</i>	johnson grass
	Solanales	Solanaceae	<i>Solanum rudepannum</i> syn. <i>Solanum torvum</i>	prickly solanum, gully bean

Source: Preferred name and classification used is checked for accuracy against the European and Mediterranean Plant Protection Organisation (EPPO) Global database (<https://gd.eppo.int/>), 16 March 2017
