

MINISTRY FOR PRIMARY INDUSTRIES
IMPORTING COUNTRIES PHYTOSANITARY
REQUIREMENTS
TONGA

Status: Approved

Date: 21 June 2002

EXPORTERS ARE ADVISED TO CONFIRM THE
PHYTOSANITARY IMPORT REQUIREMENTS PRIOR TO
EXPORT FROM NEW ZEALAND

Amendment Record

| Amendment No. | Date: | Nature of amendment: | Approved by: |
|---------------|------------------|---|--------------|
| 16. | 19 June 2020 | Updated treatment requirements for <i>Apium graveolens</i> , <i>Daucus carota</i> , <i>Foeniculum vulgare</i> , <i>Pastinaca</i> spp., <i>Petroselinum crispum</i> and <i>Vitis vinifera</i> under section 4.1.1 Fresh Fruit and Vegetables. Updated conditions under section 3.1.1 Fresh Fruit and Vegetables. | GF |
| 15. | 28 May 2020 | Updated additional declaration in Section 4.1.1 Fresh Fruit and Vegetables for <i>Apium graveolens</i> , <i>Daucus carota</i> , <i>Foeniculum vulgare</i> , <i>Pastinaca</i> spp., and <i>Petroselinum crispum</i> . | GF |
| 14. | 20 November 2018 | Added reference to Potato Cyst Nematode OAP in section 4.1.1 | SH |
| 13. | 28 May 2018 | Updated commodity specific requirements for Chestnuts in section 4.3 | SH |
| 12. | 01 June 2017 | Removed the Maximum Pest Limits, section 2.5. MPLs are covered in the MPI Phytosanitary Inspection Standard. Moved statement regarding Quarantine Pests from MPL section to Quarantine Pest section 2.4, and added note regarding native pests. | HK |

| | | | |
|-----|------------------|--|-----|
| | | <p>Amended spelling of “cellulose” in section 3.5, packing material.</p> <p>Added table heading to tables.</p> <p>Removed requirement for <i>citrus</i> spp. in section 4.3, nursery stock as prohibited.</p> <p>Amended section title of Seeds, Nuts and Grains for consistency with other ICPRs.</p> | |
| 11. | 4 December 2015 | <p>The following additional requirements for Queensland Fruit fly have been removed from the ICPR and are no longer required.</p> <ul style="list-style-type: none"> • Additional declaration required for Queensland fruit fly host material, section 3.1.1 and 4.1.1. • All passenger accompanied fruit and vegetables is prohibited, section 2.1 & 3.1.1. | JN |
| 10. | 4 March 2015 | <p>Additional declaration required for Queensland fruit fly host material, section 3.1.1 and 4.1.1.</p> <p>All passenger accompanied fruit and vegetables is prohibited, section 2.1 & 3.1.1.</p> | VK |
| 9. | 11 October 2013 | <p>Additional note under section 2.5, MPI specified Maximum Pest Limits (MPL).</p> <p>Update of MAFBNZ to MPI (Ministry for Primary Industries) to reflect ministry name change.</p> | SM |
| 8. | 29 March 2007 | Amendment of MAF details Section 2.2.5 | SW |
| 7. | 28 March 2007 | Amendment of MAF contact details Section 1.1 | SW |
| 6. | 3 February 2005 | Amendment of MAF contact details Section 1.1 and 1.2. Minor reformatting of document. | WJH |
| 5. | 14 February 2003 | Renaming and reformatting of standard. Amendment to Section 2.5 re MPLs. | WJH |

| | | | |
|----|------------------|---|-----|
| 4. | 24 July 2002 | Inclusion of a generic additional declaration for fresh produce, amendment of requirements for passenger accompanied consignments, refer Section 3.1.1. Amendment of additional declarations for fresh Carrot, Fennel, Parsnip and Celery. | WJH |
| 3. | 21 June 2002 | Revision and Reissue of EPS | WJH |
| 2. | 25 November 1998 | Section 4.1 Changes to the additional declaration wording for <i>Allium cepa</i> , <i>A. porrum</i> , <i>A. sativum</i> , <i>A. schoenoprasum</i> , <i>Apium graveolens</i> , <i>A. graveolens</i> var. <i>rapaceum</i> , <i>Brassica napobrassica</i> var. <i>solidiflora</i> , <i>B. rapa</i> var. <i>lorifolia</i> , <i>Daucus carota</i> , <i>Foeniculum vulgare</i> , <i>Pastinaca</i> spp., <i>Petroselinum crispum</i> , and <i>Raphanus sativus</i> | SCO |
| 1. | 28 October 1998 | Addition of disclaimer statement | SCO |

DISCLAIMER

The phytosanitary requirements in this document may be used as the basis for export certification. However, exporters should be aware that importing countries may change their requirements at any time; at short notice or without giving notice to New Zealand.

This information is provided strictly on the basis that the Crown, the Ministry for Primary Industries, its statutory officers, employees, agents and all other persons responsible for or associated with the compilation, writing, editing, approval or publication of the information:

1. disclaim any and all responsibility for any inaccuracy, error, omission, lateness, or any other kind of inadequacy, deficiency or flaw in, or in relation to, the information;

and

2. without limiting (1) above, fully exclude any and all liability of any kind on the part of all of them, to any person or entity that chooses to rely on this information

Compliance with this document is not to be taken as a guarantee that any particular goods will be granted access to any overseas market. We recommend that exporters work with their importers to obtain the most up-to-date information.

1 General Information

Users of this document are strongly advised to read all sections to understand the phytosanitary requirements for a commodity.

1.1 For enquiries about this document email Plant Exports Team:

plantexports@mpi.govt.nz

Please state the nature of your enquiry in the subject line e.g. Tonga query or pest interception or password re-set.

For urgent enquiries phone: +64 4 894 5693

1.2 Scope

The requirements listed in this ICPR apply to product of New Zealand only, unless specifically stated.

This ICPR specifies Tonga's phytosanitary requirements for the stated commodities and commodity classes only. If a commodity or commodity grouping is not identified within Section 3 or Section 4 exporters should direct enquiries to:

- Tonga directly in order to ascertain requirements, refer Section 2.2.7
or
- Ministry for Primary Industries (Plant Exports). Refer to Section 1.1

1.3 Phytosanitary Legislation

The following legislation controls the importation of plants and plant materials into Tonga: ref Appendix O Quarantine Manual

- Plant Quarantine Act 1981 (No.24 of 1981)
- Plant Quarantine (Amendment) Act 1985
- Plant Quarantine (Amendment) Act 1986
- Plant Quarantine Regulations 1995
- Plant Quarantine (Fees) Regulations 1997

1.4 Fees and charges

- Please note that the determination and provision of phytosanitary requirements for a commodity not listed within the ICPR may be undertaken on a cost recovered basis. A link to the list of Plant Exports Fees and Charges is available on <http://mpi.govt.nz/exporting/food/fruit-and-vegetables/fees-and-charges/>

2 General Requirements

2.1 Prohibitions

The following commodities are prohibited entry from New Zealand unless accompanied by a valid import permit ref Appendix G & RR Section

Table 1: List of commodities prohibited entry from New Zealand

| Scientific Name | Common Name | Plant Part Prohibited |
|----------------------------|--|---|
| | All passenger accompanied consignments of fresh fruit and vegetables | Fresh fruit and vegetables |
| <i>Abaca</i> spp. | | All |
| <i>Alocasia</i> spp. | Taro | All except propagating material, seed and tissue cultures. |
| <i>Arachis hypogaea</i> | Peanut | All except seed (nuts) |
| <i>Avena fatua</i> | Oats | Grain (Note under 500g of grain sent by mail is permitted. Treated upon arrival) |
| | Bonsai Plants | All |
| <i>Castanea</i> spp. | Chestnut | All except dried and blanched nuts |
| | Cereals | Grain, straw articles and stuffing. (Note under 500g of grain sent by mail is permitted. Treated upon arrival) |
| <i>Cichorium endiva</i> | Endive | Fresh root |
| <i>Cichorium intybus</i> | Chicory | Fresh root |
| <i>Citrus</i> spp. | | All except fruit and seeds. Fruit is prohibited from areas where citrus canker (<i>Xanthomonas campestris</i> pv. <i>citri</i>) occurs. |
| <i>Clausenia lansium</i> | Wampee | Fresh fruit |
| <i>Coffea</i> spp. | Coffee | All propagating material except seed. |
| <i>Colocasia</i> spp. | Taro | All except propagating material, seed and tissue cultures. |
| <i>Cymbopogon citratus</i> | Lemon grass | Fresh material |
| <i>Cyrtosperma</i> spp. | | All except propagating material, seed and tissue cultures. |

| Scientific Name | Common Name | Plant Part Prohibited |
|---|-------------------------|---|
| <i>Dioscorea</i> spp. | Yam | All except propagating material (nursery stock) |
| <i>Ficus carica</i> | Fig | Fresh |
| Heliconiaceae family | | Whole plants, corms and cut flowers. |
| | Horseradish | Fresh |
| <i>Hevea</i> spp. | Rubber | All |
| <i>Hordeum vulgare</i> | Barley | Plants, straw, chaff and grain (Note under 500g of grain sent by mail is permitted. Treated upon arrival) |
| <i>Ipomoea</i> spp. | Kumara / Sweet potato | All except propagating material (nursery stock) |
| <i>Inocarpus edulis</i> | Ifi | All except nursery stock |
| | Jumping beans | All |
| <i>Lilium</i> spp. | Lily | Fresh root |
| <i>Lycopersicon esculentum</i> | Tomato | All except fruit and seed |
| <i>Manihot esculenta</i> | Cassava/Manioc /Tapioca | All except tissue culture |
| | Mistletoe | Not specified |
| <i>Morus alba</i> | Mulberries | Fresh fruit |
| <i>Mucuna</i> spp. syn. <i>Stizolobium</i> | Velvet Bean | For consumption |
| Musaceae (<i>Musa</i> spp. and related species) | Banana | All |
| <i>Nicotiniana</i> spp. | Tobacco | Uncured leaf, plants and seed |
| Orchidaceae | Orchids | All except tissue cultures and seedlings in sterile flasks |
| <i>Oryza sativa</i> | Rice | Rice Hulls |
| Palmaceae (including <i>Cocos</i> spp. - Coconut) | Palm | All except seed-nuts and pollen from areas approved by MAFF Tonga |
| | Pre sown seed | All |
| <i>Phaseolus</i> spp.- (beans of the genus) | Bean | Fresh |
| <i>Pometia pinnata</i> | Pacific Lychee | Fresh fruit |

| Scientific Name | Common Name | Plant Part Prohibited |
|---|-------------|--|
| | Popcorn | Unpopped |
| <i>Psidium</i> spp. | Guava | Fresh |
| <i>Psophocarpus</i> spp. | Bean | Fresh beans |
| | Rhizomes | Fresh |
| <i>Rubus</i> spp. | | Fresh fruit |
| <i>Saccharum edulis</i> | Sugar cane | All |
| <i>Salacca edulis</i> | Salak | All |
| <i>Saccharum officinale</i> | Sugar cane | All |
| <i>Solanum tuberosum</i> | Potato | All except tubers, true seed and tissue cultures |
| <i>Sorghum</i> spp. | | All except seed for sowing (except <i>S. halapense</i> for which all plant parts are prohibited) |
| <i>Spondias dulcis</i> | Vi | Fruit |
| Straw | | All |
| <i>Tamarindus indica</i> | Tamarind | Not specified |
| <i>Theobroma cacao</i> and host plants of Cacao swollen shoot | | All except seed from Asia Pacific Region |
| <i>Triticum</i> spp. | Wheat | Grain (Note under 500g of grain sent by mail is permitted. Treated upon arrival) |
| <i>Xanthosoma</i> spp. | Taro | All except propagating material, seed and tissue cultures |
| <i>Vanilla</i> spp. | Vanilla | Pods |
| <i>Vicia</i> spp. | Bean | Fresh and dried beans. (Fresh may be imported by passengers as sprouted seed. Under 500g of dry seed sent by mail is permitted and will be treated upon arrival. Seed for planting and bulk consignments excluded from prohibition. Refer Section 4.4) |
| <i>Vigna</i> spp. | Bean | Fresh and dried beans. (Fresh may be imported by passengers as sprouted seed. Under 500g of dry seed sent by mail is permitted and will be treated upon arrival. Seed for planting and bulk consignments excluded from prohibition. Refer Section 4.4) |

| Scientific Name | Common Name | Plant Part Prohibited |
|----------------------------|-------------|-----------------------|
| <i>Zea mays</i> | Maize | All except seed |
| <i>Zingiber officinale</i> | Ginger | Fresh |
| <i>Ziziphus jujuba</i> | Jujube | Fresh fruit |

2.2 Phytosanitary Import Permits

ref Quarantine Manual

2.2.1 Phytosanitary import permits state the phytosanitary requirements for importation

2.2.2 Permits are normally valid for 6 months, and allow for multiple entry

2.2.3 Phytosanitary import permits are required for the importation of the following commodities;

- Fresh fruit and vegetables
- Cut flowers and foliage
- Fresh herbs
- Nursery stock
- Seed for sowing
- Some seed species for consumption

2.2.4 Phytosanitary import permits are not required for the importation of the following commodities;

- Dried fruit and vegetables
- Dried cut flowers and foliage
- Dried herbs and spices

2.2.5 Please note conditions of import or additional declarations identified upon phytosanitary import permits received from Tonga MPI may differ from those identified within this standard. Conditions of import identified herein are accurate at the time of this standards publication. Where import conditions identified upon an import permit differ from that identified within this standard, the permit conditions take precedence.

Where conditions of export identified upon an import permit differ from that stated within this ICPR, please contact Plant Exports, refer to Section 1.1

2.2.6 The original or copy of the import permit must accompany the consignment

2.2.7 Phytosanitary import permits and conditions of import may be requested from

Mr Sione Foliaki
Principal Quarantine Officer and Head of Quarantine Division
Ministry of Agriculture and Forestry

PO Box 14
NUKU'ALOFA
TONGA

Tel: (676) 24257
Fax: (676) 24922
Email: mafresrh@kalianet.to

2.3 Phytosanitary Certificates

ref Quarantine Manual

2.3.1 The following commodity classes require a phytosanitary certificate

- Fresh fruit and vegetables
- Cut flowers and foliage
- Fresh culinary herbs
- Nursery stock
- Seed for sowing
- Some species of seed for consumption

2.3.2 Phytosanitary certificates are not required for the importation of the following commodity classes

- Dried fruit and vegetables
- Dried cut flowers and foliage
- Dried herbs and spices

2.4 Quarantine Pests

Quarantine pests for Tonga include organisms identified within:

- Additional declarations
- Phytosanitary import permit

Note: Exporters should be aware that New Zealand has a number of endemic and native organisms that are unlikely to be listed on an importing country's quarantine pest list, but would almost certainly be treated as quarantine pests if found at import inspection. Phytosanitary Inspectors should take this into account when making decisions about the eligibility of product for an overseas market and treat endemic and native species found at phytosanitary inspection as quarantine pests unless there is clear evidence to the contrary. The New Zealand Organisms Register provides a search tool that can be used to determine whether the organism is endemic, native to NZ or introduced. Follow the link here: <http://www.nzor.org.nz/search>.

2.5 Ports of Entry

Where applicable approved port of entry is identified upon the phytosanitary

import permit

2.6 Inspection on Arrival

ref Quarantine Manual

All consignments of imported plant material will be subject to inspection for phytosanitary purposes on arrival to Tonga

2.7 Sampling Rates upon Arrival

ref Quarantine Manual

Table 2: Sampling rates upon arrival to Tonga

| Fresh Fruit and Vegetables | | | | | | | |
|----------------------------|------------------------|---|--|-----------------------|---------|---------|------|
| No. Packages | 1-3 | 4-25 | 26-50 | 51-100 | 101-150 | 151-200 | ≥201 |
| Units sampled | All | 4 | 6 | 8 | 10 | 12 | 15 |
| Cut Flowers and Foliage | | | | | | | |
| No. Packages | 1-3 | 4-10 | 11-20 | ≥21 | | | |
| Packages sampled | All | 50% or min 4 packages | 40% or min 5 packages | 30% or min 7 packages | | | |
| Seed | | | | | | | |
| No. Packages in lot | 1-5 | 6-30 | ≥21 | | | | |
| Units sampled | 1 sample every package | 1 sample every 3 rd package but not less than 5 bags | 1 sample every 5 th package but not less than 10 bags | | | | |

2.8 Transit

Requirements not specified

2.9 Wood Packaging

Refer to Forestry ICPR for Tonga, link below:

<http://mpi.govt.nz/law-and-policy/requirements/icprs/forestry-icprs/tonga/>

3 Commodity Class Requirements

ref Section 8 Quarantine Manual & Fax 010702

3.1 Fruit and Vegetables

3.1.1 Fresh Fruit and Vegetables

Conditions:

Phytosanitary import permit and phytosanitary certificate required. Additional declarations **and treatment** where required will be stated upon the import permit. Packaging associated with the consignment must be new and clean. Consignment must be free of soil. Treatments where applicable must be identified upon the phytosanitary certificate. Refer Section 4.1.1 for commodity specific requirements.

Additional declarations: (generic for all fresh produce). **Note**, refer to import permit for other AD's which may be required.

"New Zealand Grown"

OR

".....(name of produce exported) is reshipped from New Zealand, and has been cleared by MPI and meets the current import standards for the entry of fresh produce into New Zealand"

3.1.2 Dried Fruit and Vegetables

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection upon arrival. If live insects are identified, consignment will be treated, destroyed or shipped. Packaging associated with the consignment must be new and clean. Refer Section 4.1.2 for commodity specific requirements.

3.1.3 Frozen Fruit and Vegetables

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Consignment must be commercially frozen. Export documentation must demonstrate produce has been frozen at -18°C for a minimum of 7 days. Packaging associated with the consignment must be new and clean. Frozen Citrus will be subject to quarantine inspection.

Passenger accompanied consignments

Conditions:

Passenger accompanied consignments will be inspected upon arrival.

3.1.4 Fresh Culinary Herbs

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Must be free of propagatable material - includes the herbs parsley, dill, chives, sorrel, chervil and coriander. The following additional declaration may be required for some species of fresh herbs ref IP 0459 2002, RR Section

Additional declaration

"New Zealand grown"

AND

"Grown in an area free from Carrot Rust Fly (*Psila rosae*)"

3.1.5 Dried Culinary Herbs

Conditions

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection on arrival.

3.2 Cut Flowers and Foliage

ref Section 8 Quarantine Manual

3.2.1 Fresh Cut Flowers and Foliage

Passenger accompanied consignments

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Passengers are permitted to carry small bunches of non prohibited flowers. Flowers must be incapable of propagation.

Cut flowers of *Orchidaceae*, *Heliconiaceae* and *Musaceae* are **PROHIBITED**

Commercial consignments

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declarations where required will be stated upon the import permit. Packaging associated with the consignment must be new and clean. Flowers and foliage must be incapable of propagation. Refer Section 4.2.1 for commodity specific requirements.

Cut flowers of *Orchidaceae*, *Heliconiaceae* and *Musaceae* are **PROHIBITED**

3.2.2 Dried Cut Flowers and Foliage

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection upon arrival. Prohibited plant species are not permitted. If live insects or fungal diseases are identified, consignment will be treated, destroyed or reshipped. Material must be incapable of further growth.

3.2.3 Herbarium Specimens

ref Section 12 Quarantine Manual

Conditions:

Phytosanitary import permit and phytosanitary certificate not generally required. Inspection upon arrival. May be treated on arrival if it is found that the material is improperly dried, or if seeds and insects are present. Must not contain prohibited plant species.

3.3 Nursery Stock

ref Section 16 Quarantine Manual

Budwood and Cuttings

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declarations where required will be stated upon the import permit. Packaging associated with the consignment must be new and clean. Post entry quarantine is required for most nursery stock. Refer Section 4.3 for commodity specific requirements.

Bulbs/tubers/corms/rhizomes (for propagation)

Conditions:

Refer Section 3.3.1.

Note, 'rhizomes' of plant material are prohibited

Whole Plants

Conditions:

Refer Section 3.3.1

Tissue Culture

Conditions:

Refer Section 3.3.1

Aquatic Plants

ref RR Section

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Post entry quarantine required. Ref RR Section

Bonsai Plants

Conditions:

Prohibited

3.4 Seeds, Grains and Nuts

3.4.1 Seeds, Grains and Nuts for Sowing

ref Section 16 Quarantine Manual

Non Commercial Consignments

Conditions:

Small packets of non-prohibited seed commercially packed by a recognised seed supplier may be permitted entry without inspection. Seed not commercially packaged, or from an unknown seed supplier will be inspected on arrival.

Note, an import permit is required for packets of maize, corn and carrot seed.

Commercial Consignments

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declarations where required will be stated upon the import permit. Packaging associated with the consignment must be new and clean.

Refer Section 4.4.1 for commodity specific requirements

3.4.2 Seeds, Grains and Nuts for Consumption

Conditions:

Some species of seed for consumption require a phytosanitary import permit

and or phytosanitary certificate. Refer Section 4.4.2. Exporters are advised to confirm requirements prior to shipping.

3.4.3 Seeds, Grains and Nuts for Processing

Conditions:

Not Specified

3.5 Packing Material

ref IP 0453 2002 & RR Section

Conditions

Permitted packing materials include

- buckwheat hulls
- cellulose wadding
- clean paper
- foam
- plastic
- granulated cork
- sawdust
- vermiculite
- wood shavings
- wood wool
- charcoal
- osmunda fibre
- peat moss
- perlite
- sphagnum moss

Packing material must **NOT** comprise

- hay
- chaff
- straw
- cereal straw
- soil
- rice hull
- decomposing material.

4 Commodity Specific Requirements

4.1 Fruit and Vegetables

4.1.1 Fresh Fruit and Vegetables

Refer Sections 3.1.1 & 3.1.4

Abaca spp.

Conditions:

Prohibited

Actinidia spp.

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional

Kiwifruit

declaration as stated upon import permit. ref IP 0462 2002

Aegle marmelos

Bael

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Agaricus spp.

Mushroom

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. ref IP 0460 2002

Allium ampeloprasum

Leek

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. ref IP 459 2002

Additional declaration

"Grown in New Zealand"

AND

"Leeks are free from White Rot (*Sclerotium cepivorum*) and Neck rot (*Botrytis* spp.) and were grown in an area where onion smut (*Urocystis cepulae*) is not known to occur"

Allium ascalonicum (cepa)

Shallot

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. ref IP 459 2002 / RR Section

Additional declaration

"Grown in New Zealand"

AND

"Shallots are free from White Rot (*Sclerotium cepivorum*) and Neck rot (*Botrytis* spp.) and were grown in an area where onion smut (*Urocystis cepulae*) is not known to occur"

Allium cepa

Onion

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. ref IP 459 2002

Additional declaration

"Grown in New Zealand"

AND

"Onions are free from White Rot (*Sclerotium cepivorum*) and Neck rot (*Botrytis* spp.) and were grown in an area where onion smut (*Urocystis cepulae*) is not known to occur"

Allium sativum

Garlic

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. Subject to fumigation upon arrival.

Allium schoenoprasum

Chives

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. Fresh leaves only permitted. Must be free of propagatable material.

Alocasia spp.

Taro

Conditions:

Prohibited

Ananus comosus

Pineapple

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Anethum graveolens

Dill

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. Fresh leaves only permitted. Must be free of propagatable material.

Apium graveolens

Celery

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration **s and treatment** as stated upon import permit. Basal part must be removed.
ref. fax 010702

Additional declaration

"New Zealand Grown"

AND

"Grown in an area free from Carrot Rust Fly (*Psila rosae*)"

OR

"The produce was treated with Methyl Bromide at 32g/m³ for 2 hours at 21 degrees Celsius (ambient temperature) or above at atmospheric pressure"

Treatment:

Fumigation with methyl bromide at one of the following rates:

32 g/m³ for 2hrs at 21°C and above

40 g/m³ for 2hrs at 16-20°C

48 g/m³ for 2hrs at 11-15°C

56 g/m³ for 2hrs at 10°C

Note: Fumigation with Methyl Bromide is not permitted below 10°C.

Artemisia dracunculus

Tarragon

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Asparagus spp.

Asparagus

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. Must be free of soil.

Beta vulgaris Beet

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. ref IP 0460 2002

Beta vulgaris Silver Beet

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Brassica napus Swede

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit. Must be free of leaves.

Additional declaration

"New Zealand Grown"

AND

"Grown in an area free from Carrot Rust Fly (*Psila rosae*)"

Brassica oleracea Broccoli

Conditions:

4.4 Seeds, Grains and Nuts

4.4.1 Seeds, Grains and Nuts for Sowing

Refer Section 3.4.1

Agrostis spp. Bent grass/Brown top

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Alopecurus pratensis Meadow

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Avena spp. Oat

Conditions:

Prohibited

Brassica campestris Turnip Rape

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Brassica napus Rape

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Bromus mollis Bromegrass

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Bromus spp. Prairie grass

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Borago officinalis

Borage

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Cicer arietinum

Chickpea

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Cucurbita pepo

Squash

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Cortaderia spp.

Pampas Grass

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Cynosurus cristatus

Dogtail

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Dactylis glomerata

Cocksfoot

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Delonix spp.

Poinciana

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Festuca spp.

Fescue

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Hedysarum coronarium

Sulla

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Helianthus spp.

Sunflower

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Hordeum vulgare

Barley

Conditions:

Prohibited

Inocarpus edulis

Iffi

Conditions:

Prohibited

Linum usitatissimum

Linseed

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Lolium spp.

Rye grass

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Lotus spp.

Lotus

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Lupinus spp.

Lupin

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Lycopersicon esculentum Tomato

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Medicago sativa

Lucerne

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Melilotus spp.

Sweet clover

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Nicotiniana spp.

Tabacco

Conditions:

Prohibited

Orinthopus spp.

Serradella

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional

declaration as stated upon import permit.

Phalaris spp. Canary Grass

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Phaseolus vulgaris Bean

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Phleum spp. Timothy grass

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Pisum spp. Pea

Conditions:

Not specified

Plantago lanceolata Plantain

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Paspalum spp. Paspalum

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Sorghum spp. excluding S. halapense Broom corn/Sudan

Conditions:

Phytosanitary import permit required. International seed testing certificate required.

Sorghum halapense Johnson grass

Conditions:

Prohibited

Trifolium pratense Red Clover

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Trifolium repens White Clover

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Triticum spp. Wheat

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Vicia faba

Broad Bean

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Additional declaration as stated upon import permit.

Zea mays

Maize

Conditions:

Requirements not specified

4.4.2 Seeds, Grains and Nuts for Consumption

Refer Section 3.4.2

Aesculus spp.

Conkers/ Horse chestnuts

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection upon arrival.

Arachis hypogaea

Peanut

Conditions: (shelled or unshelled raw, seed in bulk)

Phytosanitary import permit required. Phytosanitary certificate required. Bulk consignments may be treated upon arrival.

Avena spp.

Oat

Conditions:

Prohibited

Brazil nuts

Conditions: (shelled or unshelled)

Phytosanitary import permit not required. Phytosanitary certificate not required. Fumigation mandatory for commercial consignments upon arrival. Small packets will be inspected on arrival

Caraway seed

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection upon arrival.

Cardamon

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection upon arrival.

Cashew nuts

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Fumigation mandatory for commercial consignments upon arrival. Small packets will be inspected on arrival

Castanea spp.

Chestnuts

Conditions:

Phytosanitary import permit not required. Phytosanitary Certificate not required. Only dried or blanched nuts permitted. Inspection upon arrival.

Cicer arietinum

Chickpea

Conditions:

Phytosanitary import permit required. Phytosanitary Certificate required. Additional Declaration as stated upon import permit. International seed testing certificate required for bulk consignments.

Glycine max

Soya bean

Conditions:

Import Permit required and Phytosanitary Certificate required. International seed testing certificate. Subject to fumigation upon arrival

Hordeum spp.

Barley

Conditions:

Grain Prohibited

Juglans spp.

Walnut

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Commercial consignments will be fumigated upon arrival. Small packets of 'walnut meat' imported by air passengers will be inspected upon arrival.

Lens culinaris

Lentils (whole and split)

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection on arrival.

Macuna spp.

Velvet bean

Conditions:

Prohibited

Pisum spp.

Pea (dried)

Conditions:

Prohibited - Freeze dried pea are permitted

Pecan nuts (raw)

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Fumigation upon arrival for raw seeds. Small packets will be inspected on arrival.

Popcorn (fresh)

Conditions:

Unpopped PROHIBITED

Popped - Inspection on arrival

Prunus amygdalis

Almond

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Fumigation required. Small commercial packs of roasted nuts will be inspected and treated if insects are identified.

Roasted nuts

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection on arrival.

Sesamum indicum

Sesame

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection on arrival.

Sprouted Seeds

Conditions:

Commercially prepared sprouted seeds may be imported by passengers without an import permit provided the containers are unopened and properly labelled indicating name of packer, type of seed, and country of origin.

Triticum spp.

Wheat

Conditions:

Grain prohibited

Vanilla spp.

Vanilla

Conditions:

Pods prohibited

Vicia spp.

Broad Bean

Conditions:

(Seed for planting and within 'bulk consignments only - other seed **prohibited**). Phytosanitary import permit required. Phytosanitary certificate required. Bulk seed requires an International seed certificate required. Subject to inspection on arrival.

Vigna spp.

Conditions:

(Seed for planting and within 'bulk consignments only - other seed **prohibited**). Phytosanitary import permit required. Phytosanitary certificate required. Bulk seed requires an International seed certificate required. Subject to inspection on arrival.

4.4.3 Seeds, Grains and Nuts for Processing

Not specified

4.5 Miscellaneous

Baskets

Conditions:

Baskets made out of cane, buka, willow or bamboo will be inspected upon arrival and treated if required.

Corn Cob Powder

Conditions:

Phytosanitary import permit required.

Corn Grits

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection on arrival.

Crystallised Fruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required. Inspection on arrival.

Herbal Teabags

Conditions:

Import Permit required and Phytosanitary Certificate required. Additional Declaration as stated upon import permit.

Panax spp.

Ginseng

Conditions:

Import Permit required and Phytosanitary Certificate not required. Inspection upon arrival.

Stockfood

Conditions:

Phytosanitary certificate required. Treatment may be required. Exporters are advised to confirm requirements prior to shipping.
